13.10.2017 | [The Newswire](#)

Vancouver, October 13, 2017 - [Durango Resources Inc.](#) (TSX.V-DGO), (the "Company" or "Durango") announces that further to the news of September 7, 2017, the Company owns 100% of fractional claims which exist adjacent to Garibaldi Resources (TSX.V-GGI). The fractions were issued by British Columbia Mineral Titles Online system earlier this year and one is located adjacent to the east of GGI and the other is located southeast of GGI and is tied to [Metallis Resources Inc.](#) (TSX.V-MTS).

GGI announced earlier today that more holes have intersected mineralization and have expanded the zone, including "...at least two kilometres of prospective ground exist to the east-southeast while a northeast trend of geophysical anomalies and surface mineralization continues for at least six km."

Durango management is exploring the options available for the fractions and will provide an update as soon as it becomes available.
