

# MULTIGRAM

For the bullion  
enthusiast. Or to gift.

**PAMP**  
Produits Artistiques Metaux Precieux

Seemingly one stunning CertiPAMP ingot presentation, PAMP's innovative and best-selling MULTIGRAM range is in fact ingeniously packaged bullion sets that are divided into snap-off units – each securing a 1-gram Fortuna ingot of fine gold, and is also available in a variety of weights and select designs, as well as PAMP's full range of precious metals. Ideal for bullion enthusiasts or for gift giving, the inventive design of interconnected CertiPAMP cards allows for effortless removal of the desired quantity. And yet each securely sealed ingot retains its individual PAMP certification and unique identity.

Indeed, each MULTIGRAM ingot is secured within its own CertiPAMP card that features a unique serial number, assayer's signature, and confirmations of weight and metal fineness. MULTIGRAM products can be authenticated through PAMP's VeriScan® Bullion Identification Security System.

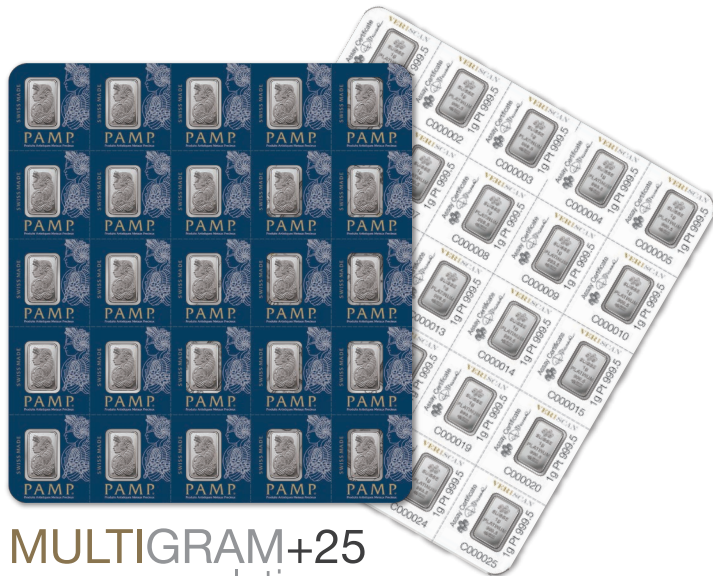

Please contact a PAMP Sales Representative for further details.
