

Accredited by the Swiss Federal Bureau

PAMP quality begins at the assay facilities, supervised by sworn assayers accredited by the Swiss Federal Bureau for the Control of Precious Metals.

Authenticity and Identification

Each bar is individually registered and sealed in protective 'Certi-PAMP' packaging with an integrated and official Assay Certificate that guarantees fine precious metal content and weight.

PAMP®
Produits Artistiques Metaux Precieux

Raise the bar...

Founded in Switzerland more than 30 years ago, Produits Artistiques Metaux Precieux, or PAMP, is the recognized, global leader of bullion bars ranging in weights from 1 to 100 grams. That's because PAMP not only meets but also surpasses quality excellence standards, from industry accreditation to product integrity and authenticity.

An exceptional range to choose from:

Value and Prestige

As the very first to embellish its bars with decorative motifs, PAMP offers an extraordinary range of shapes and designs from which to choose. The most famous of those designs is, of course, the exquisite Lady Fortuna™, a PAMP signature that quickly became an emblem of outstanding quality throughout the world.

To learn more about why PAMP bullion is preferred by leading banks, government and financial institutions, investors and collectors worldwide, visit www.pamp.com -- and raise the bar.
