Invitation to friends of precious metals, to critical and independent thinkers, and to all proponents of sound money. Deutsche Edelmetall-Gesellschaft in association with GATA and the GoldMoney-Foundation is pleased to present to you a special international "Discourse" evening with GATA-Founder Bill MURPHY (first time in Europe in many years!) and with James TURK, Founder of GoldMoney.

"An Evening with Bill Murphy"

29 April 2011

Munich, Hofbräuhaus / "Wappensaal"

BILL MURPHY

Key Note Speech:

**"The Secret to understanding the
Gold and Silver Markets
is to know what GATA knows"**

Bill Murphy is one of the boldest and most diligent and vocal critics of our current unbacked and fraudulent monetary system. Together with Chris Powell, Murphy founded "GATA" in 1998/99: The "Gold Anti-Trust Action Committee" was organized as a Delaware corporation to advocate and undertake litigation against illegal practices to control the price of gold. GATA seeks to disclose and publicize the huge speculative short positions in gold taken by financial institutions and bullion banks. In addition, Murphy has for many years operated the famous internet site www.lemetropolecafe.com where "the real gold story" is told and commented on. For more than 12 years, Murphy's untiring work has contributed greatly to finally exposing the manipulation of the gold and silver markets. As a result, we seem to currently be witnessing the beginning of the collapse of this manipulation.

JAMES TURK

Short Speech & Panel Participation:

„Current Status of the World Economy, the Financial Crisis & the Role of Precious Metals“

John Turk is one of the leading authorities for Gold & Silver both as investments and in their role as money. He is founder of GoldMoney, an internet-enabled and gold-based investment system and a de facto payment system, whose mission is to provide the best way to buy physical precious metals online and to ensure secure storage. In order to advance the knowledge of free market economics and sound money, Turk has established the GoldMoney Foundation - an educational not-for-profit organisation with a focus on Austrian Economics and on the possible re-monetization of Gold and Silver. He has written several monographs and numerous articles on money and banking; and he is the co-author of the book "The Collapse of the Dollar" (2004). Turk is a frequent guest even in the mainstream media (CNBC, Bloomberg, Reuters, CNN, etc.).
