

Franco-Nevada Purchases Royalty From Dorato Resources Inc.

26.06.2012 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA -- (Marketwire) -- 06/26/12 -- [Dorato Resources Inc.](#) ("Dorato" or the "Company") (TSX VENTURE: DRI) (OTCQX: DRIF) (FRANKFURT: DO5) is pleased to announce that on June 22, 2012 the Company entered into a Royalty Purchase Agreement with [Franco-Nevada Corporation](#) ("Franco") whereby Franco has been granted a 2% net smelter return on the Company's mineral properties in Peru in consideration of \$350,000 in cash. This Agreement replaces the Royalty Option Agreement between the parties dated August 18th, 2008 and amended March 30th, 2009 which the parties mutually agreed to terminate.

About Dorato Resources Inc.

[Dorato Resources Inc.](#) is a mineral exploration company focused on the highly prospective Northern Peru copper-gold porphyry-epithermal belt. The Company has property rights in two geographic centres:

- Cajamarca Region Project-- Dorato has acquired rights on the Deborah property, which is nestled between several important copper-gold deposits, including Michiquillay and El Galeno.

- Cordillera del Condor Asset-- one of the most important gold-bearing districts in northern Peru since pre-Incan times. Dorato, through a series of option agreements has the right to wholly acquire an extensive land package of approximately 1,050-square-kilometres, providing the Company with the largest land position in the Cordillera del Condor.

The Company focuses on grassroots opportunities in strategically important locations where prospectivity can be demonstrated by proximity to existing deposits. The Cajamarca Region, in contrast, is an established mining district with excellent infrastructure. The Deborah property is a foothold for Dorato into an established area with excellent exploration potential. The Cordillera del Condor project represents an exceptional land position and an emergent copper-gold district, located close to the border with Ecuador. This remote area of Peru was unexplored until recently, but it is located within kilometres of recent discoveries like Fruta del Norte and the Mirador District (both located just across the border in Ecuador).
