

Pan American Fertilizer Corp. Announces Loan Agreement

16.12.2013 | [The Newswire](#)

Vancouver, B.C., Canada. December 16th, 2013 - [Pan American Fertilizer Corp.](#) (TSX.V: PFE, Frankfurt: 6GF) (the "Company" or "Pan American") announces that it has secured a short term loan, with an arm's length lender (the "Lender"), in the principal amount of CAD\$180,000 (the "Loan"), due on March 13, 2014 (the "Maturity Date"). Proceeds of the Loan will be used for general working capital.

About Pan American Fertilizer Corp.

Pan American is a Canadian company dedicated to providing fertilizer to growing global markets specifically in South and Central America. The company is focused on the extraction of a specific type of fertilizer called calcium sulphate (also referred to as "Agricultural Gypsum") currently in Argentina. To ensure long term development and increase shareholder value, Pan American currently plans to significantly expand its current operational objectives while expanding its asset base by acquiring additional calcium sulphate and other fertilizer related assets and by expanding its markets to countries neighbouring Argentina.

The Calcium Sulphate project is a unique project, for the following reasons:

- 1) Its high grade calcium sulphate (CaSO_4) rock outcrops and is fully permitted and in operations via conventional extraction methods with secured mining rights for 20 years with right to extend for another 20 years, allowing for scalable operations;
- 2) It is strategically located in close proximity to the well-known "Nucleus Agricultural Zones" of South America where the majority of the continent's important and dynamic agribusiness activity is located;
- 3) It connects to Paraguay and Brazil's largest fertilizer distribution districts via existing and high quality infrastructure;
- 4) It has the potential to supply CaSO_4 to South America's agriculture market from its large calcium sulphate-rich deposit.

When used as a fertilizer and as a soil remediator, calcium sulphate is a soft sulphate mineral composed of calcium sulphate dihydrate ($\text{CaSO}_4 \cdot 2\text{H}_2\text{O}$) which is extremely rich in sulphur and calcium. When dissolved in water, the mineral becomes calcium and sulphate ions, both of which are required nutrients for plants. Calcium Sulphate plays a vital role in establishing and maintaining good chemical balance in soil, water and plants, specifically with healthy root development. Ultimately, calcium sulphate increases overall crop quality and yields. For more information please look at our website www.PAFertilizer.com

Forward Looking Statements

Some statements in this news release contain forward-looking information (within the meaning of Canadian securities legislation), including Statements contained in this news release that are not historical facts constitute "forward-looking statements" or "forward-looking information" within the meaning of applicable securities laws and are based on expectations, estimates and projections as of the date of this release. The words "is expected" or "estimates" or variations of such words and phrases or statements that certain actions, events or results "may" or "could" occur and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Pan American as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Known and unknown factors

could cause actual results to differ materially from those projected in the forward-looking statements. Many of these factors can affect Pan American's actual results and could cause actual results to differ materially from those expressed or implied in any forward looking statements made by, or on behalf of, Pan American. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are provided for the purpose of providing information about management's expectations and plans relating to the future.

NEITHER THE TSX VENTURE EXCHANGE NOR ITS REGULATION SERVICES PROVIDER (AS THAT TERM IS DEFINED IN THE POLICIES OF THE TSX VENTURE EXCHANGE) ACCEPTS RESPONSIBILITY FOR THE ADEQUACY OR ACCURACY OF THIS RELEASE.
