CALGARY, ALBERTA--(Marketwired - Jul 25, 2014) - **BACANORA MINERALS LTD.** ("Bacanora" or the "Company") (TSX VENTURE:BCN)(AIM:BCN) is pleased to announce that the Company's Common Shares have been admitted to the AIM Market of the London Stock Exchange ("AIM") and that dealings commenced at 8:00 a.m. (U.K. time) today. Concurrent with the admission, the Company also completed its previously announced brokered financing of 14,393,940 common shares at a price of £0.33 per share for aggregate gross proceeds of £4,750,000. Using a foreign exchange rate of £1.00 = CAD\$1.834, the offering price per security is approximately CAD\$0.605 and the aggregate gross proceeds of securities sold is approximately CAD\$8,708,334. In addition to (and over and above) the foregoing, a 'vendor placing' (i.e.: sale of shares by an existing holder of Bacanora shares to subscribers under the offering) of 2,000,000 shares was completed at the same offering price. Upon completion of this offering, the Company paid cash commissions to its broker, HD Capital Partners LLP, in the amount of £200,500 (approximately CAD\$367,717) and issued 90,909 common shares at a price of £0.33 per share and 390,874 non-transferrable warrants ("Broker Warrants") to HD Capital. The offering was completed in reliance upon exemptions from applicable prospectus and registration requirements. Accordingly, any trades of securities issued under the offering that occur in Alberta or to a purchaser in Alberta would be subject to a hold period equal to four months and one day from the date of issuance (being November 26, 2014). Trades of securities occurring through the CREST system among non-Alberta residents will not be subject to this restriction. There were no Alberta subscribers under the offering and all of the aforementioned shares have been deposited under the CREST system. The proceeds of the offering will be used to cover the expenses associated with the AIM listing and to fund the preparation of a pre-feasibility study on the Company's Magdalena Borate Project, for the continuation of the Company's work program to establish the economic potential of the Sonora Lithium Project and for general working capital purposes.

Commenting on the foregoing matters, Colin Orr-Ewing, Chairman of the Board stated, "The successful listing on AIM and the completion of this brokered financing provides Bacanora with the financial resources and the capital markets' platform to accelerate the exploration and development of our two key projects. Bacanora continues to deliver on its key project milestones with the next phases of its growth, including the completion of the economic feasibility study of our high grade Borate Project, and the development of commercial production of boric acid. We continue to explore our lithium resource base at Sonora and look forward to advancing this project further."

In accordance with provision (i) above, shareholders with interests in three percent (3%) or more of the Company's common shares are requested to notify the Company in order to enable it to comply with AIM Rules.
