

Sydney, Australia (ABN Newswire) - The China CleanTech Index underperformed all of its four benchmarks for the month of June 2015 and recorded a loss of 12.9%. This was driven by big losses across all Chinese stocks due to the volatile Shanghai stock exchange.

Over the second quarter of 2015, the China CleanTech Index recorded a gain of 1.2%, outperforming three of its benchmark indices. The twelve month gain for the China CleanTech Index now stands at 49.0% driven by the China Hydro Index (+158%), the China Efficiency Index (+78%) and the China Water Index (+65%).
