

MONTREAL, QUEBEC--(Marketwired - Nov 9, 2015) - [Mason Graphite Inc.](#) ("Mason Graphite" or the "Company") (TSX VENTURE:LLG)(OTCQX:MGPWF) reports that it has completed and filed the technical report entitled "*NI 43-101 Technical Report: Resources Update and Feasibility Study, Lac Guéret Graphite Project, Québec, Canada*" which has been prepared pursuant to Canadian Securities Administrators' National Instrument 43-101 in support of the September 25th, 2015 news release which detailed the results of a Feasibility Study for the company's Lac Guéret Project in northeastern Québec.

The preparation of the study was directed by Mr. Jean L'Heureux, Eng., M. Eng., Executive Vice-President, Process Development. His recognized expertise has contributed significantly to the realization of this study. In addition, Mason Graphite would like to thank all the partners involved for their valuable contribution to this important milestone.

For further details, please access the Technical Report having an effective date of September 25 2015 available on www.sedar.com under Mason Graphite's profile and on the Company's corporate website at www.masongraphite.com.

Plan Nord

Mason Graphite would also like to draw attention to the recent inauguration by the Minister of Energy and Natural Resources and Minister responsible for the Plan Nord, Mr. Pierre Arcand, of the regional office of the Société du Plan Nord in Baie-Comeau. The office will support communities in their projects development efforts, will facilitate links with the different government agencies and will meet the needs of the stakeholders by ensuring continuous, functional and effective links with them. The office will also support businesses in their efforts to do business in the territory of the Plan Nord.

About Mason Graphite and the Lac Guéret Project

Mason Graphite is a Canadian mining and processing company focused on the development of its 100% owned Lac Guéret natural graphite deposit located in northeastern Québec. The Company is led by a highly experienced team that has over 5 decades of experience in graphite production, sales, and research and development. For more information, visit www.masongraphite.com.
