

Bellhaven Copper & Gold Inc. Re-Announces Sale of Non-Core Assets

17.11.2015 | [Marketwired](#)

VANCOUVER, Nov 17, 2015 - [Bellhaven Copper & Gold Inc.](#) (TSX VENTURE:BHV) ("Bellhaven" or the "Company") re-announces the sale of non-core mineral assets located in Panama to [Pershingco Resources Inc.](#) (TSX:PRO) for a cash consideration of US\$140,000 for the sale of Bellhaven's wholly owned subsidiary Aurum Exploration Inc. These assets consist of two mineral exploration concessions pending its time extensions by the Mineral Resources Dept. of Panama and five minerals exploration applications also pending approval. These assets have been sold as Bellhaven will focus solely in the exploration and development of its flagship LaMina/La Garrucha gold and copper project located in Colombia. The proceeds from this sale will be used for operational purposes.

About Bellhaven

Bellhaven Copper & Gold Inc. is a Canadian-listed (TSX VENTURE:BHV) exploration company exploring for gold and copper in Colombia. The Company's goal is to be a leader in gold and copper development in Colombia. Bellhaven focuses on discovery, acquisition and development of high-quality resources in a safe and responsible manner for the benefit of all of its stakeholders.

The Company's flagship project is the La Mina gold-(copper) porphyry deposit in the Middle Cauca belt of Colombia. The total La Mina resource now includes 1.6 Moz gold and 419 million pounds of copper (or 2.55 Moz gold equivalent) contained in 79.9 million tonnes averaging 0.62 g/t Au, 0.24% Cu, or a gold equivalent grade of 1.0 g/t (based on a 0.30 g/t Au cutoff grade). The average grade of 1.0 g/t gold equivalent makes La Mina one of the highest grade gold-(copper) porphyry deposits in the Americas. The Company is currently seeking to develop and to grow these resources through mine development and through ongoing exploration on the La Mina and La Garrucha concessions. On behalf of the board of directors,

Julio C. Benedetti, CEO and Executive Chairman
BELLHAVEN COPPER & GOLD INC.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Statements in this press release, other than purely historical information, including statements relating to the Company's future plans and objectives or expected results, may include forward-looking statements. Forward-looking statements are based on numerous assumptions and are subject to all of the risks and uncertainties inherent in resource exploration and development. As a result, actual results may vary materially from those described in the forward-looking statements.

Gold equivalent grades have been calculated using the following formula: $AuEq = Au(g/t) + [Cu(\%)] \times \{ \%Recoverable\ Cu / \%Recoverable\ Au\} \times \{ Net\ Cu\ Price / Net\ Au\ Price\} \times \{ \%Payable\ Cu / \%Payable\ Au \times 22.0462 \times 31.1035 \}$. Metal recoveries are estimates based on metallurgical results announced in Bellhaven's news release dated Nov. 15, 2011. Net metal prices for gold and copper are the long-term forward curve metal price minus refining charge. Metal prices based on the long-term forward curve are as of May 8, 2013 (US\$1482 for gold and \$3.40/lb for copper). Metal refinery charges and % payable metal by the smelter are estimates based on third-party consultants. Metal prices, refinery charges and % payable metal are not constant and are subject to change. Mineral resources are not mineral reserves and do not have demonstrated economic viability. There is no certainty that all or any part of the mineral resources will be converted into mineral reserves.
