Additionally, Atmosphere Australia has completed a marketing platform for schools, leading to a sales contract with The Hills Pre-School as a cleaner and sanitizer. Atmosphere has conducted extensive product research with successful field trials in Australia, and the USA. Manufacturing and distribution is established in Australia (Sydney NSW), Gold Coast and the USA (Chicago Illinois). The sales traction that is being realized from Australia offers Atmosphere Global direction into additional vertical markets.

The Company is extremely excited and eager to market and distribute Atmosphere's products. The Company plans to utilize its mining partners to promote Atmosphere product sales in that industry where it is used to mitigate dust and clean equipment. Following such efforts The Company expects mining industry sales growth in the coming months. As time progresses, The Company plans to focus on the green biodegradable sector of the market. This move is in line with the ecofriendly nature of Atmosphere's products.
