"Despite some production issues in the past few months, we have consistently maintained a positive cash flow. This has allowed us to explore for and find additional higher grade zones at the mine, as we recently reported, as well as to commence an aggressive drill program on our Toiyabe project located in Nevada. With the ramp up of our Altiplano processing facility, we are fully active in exploration, mining and industrial milling of concentrates, covering all facets of mining activity." reported Robert Eadie, President of the Company.
