About BNN:

Business News Network (BNN) is Canada's only all business specialty channel with real time coverage of global market activity from a Canadian perspective.

Company Profile

[BacTech Environmental Corp.](#) holds the perpetual, exclusive, royalty-free rights to use BACOX bioleaching technology for the reclamation of tailings and mining waste materials. The Company's principal focus is a high-grade tin/silver/copper tailings project called Telamayu, located in Atocha, Bolivia, in association with COMIBOL, the state mining group. Investigation has begun to identify opportunities in Ecuador where mercury and arsenic issues caused by artisanal mining leads to environmental degradation. The Company continues to field enquiries globally with respect to additional opportunities for remediation, including licensing transactions for the technology.
