

Wesdome Announces 2018 First Quarter Financial Results

01.05.2018 | [GlobeNewswire](#)

TORONTO, May 01, 2018 (GLOBE NEWSWIRE) -- [Wesdome Gold Mines Ltd.](#) (TSX:WDO) ("Wesdome" or the "Company") today announces first quarter ("Q1 2018") financial results. All figures are stated in Canadian dollars unless otherwise noted.

Mr. Duncan Middlemiss, President and CEO commented, "2018 is off to a strong start with higher underground grades and volume driving higher gold production and lower costs. Free cash flow generation of \$3.2 million, or \$0.02 per share after investment of \$8.5 million back into the properties has allowed the company to build its cash position by nearly \$4.4 million. We expect costs to continue to trend downwards in the second half of the year, when we open two new stopes in both the 303 and 7 Zones. Lower general and administrative costs are also benefitting costs on an all-in sustaining basis. During the quarter, the cash position increased from \$22.1 million at the end of 2017 to \$26.5 million at the end of Q1 2018."

"Cash flows will continue to be used to aggressively drill underground at the Eagle River Underground Mine and the Kiena Complex. The objective at the Eagle River mine is to expand all three parallel Zones, with a focus on the 300 and 7 Zones, increase reserves, and diversify production areas within existing infrastructure to further increase the ratio of Eagle River Underground ore versus Mishi Open Pit ore to the mill. In Q1, this strategy began to take effect with 57% of tonnes delivered to the mill coming from the Eagle River Underground Mine versus 50% in 2017. We expect the higher ratio of Eagle River Underground ore to continue throughout 2018."

"At Kiena, this is a year of assessment where we will be drilling 50,000 metres underground including the Kiena Deep A and Upper Quartz Zones. The objective of this year's program is to complete a resource update on the Kiena Deep discovery and we are well underway with over 13,000 metres completed to date and we have just added a fourth underground drill."

Key operating and financial highlights of the Q1 2018 results include:

- Gold production of 17,949 ounces from the Eagle River Complex, a 18% increase over the same period in the previous year (Q1 2017: 15,162 ounces):
 - Eagle River Underground 44,480 tonnes at a head grade of 12.0 grams per tonne ("g/t Au") for 16,398 ounces produced, 21% increase over the previous year (Q1 2017: 13,588 ounces).
 - Mishi Open Pit 32,846 tonnes at a head grade of 1.8 g/t Au for 1,550 ounces produced (Q1 2017: 1,574 ounces).

- Free cash flow of \$3.2 million or \$0.02 per share¹ (Q1 2017: outflow of \$5.9 million or (\$0.05) per share).
- Net income of \$2.9 million or \$0.02 per share (Q1 2017: \$0.7 million or \$0.01 per share). Net income (adjusted)¹ was \$2.9 million or \$0.02 per share.
