

Bravada Gold Corp.: Increases Previously Announced Equity Financing

26.06.2019 | [Newsfile](#)

Vancouver, June 26, 2019 - [Bravada Gold Corp.](#) (TSXV: BVA) ("the Company") reports that it has received Exchange approval to increase the previously announced private placement from Cdn\$700,000 to Cdn\$870,000. The Company now plans to issue up to 12,428,571 units ("Units") in the non-brokered private placement at a price of \$0.07 per Unit for gross proceeds of Cdn\$870,000.

The Company announced (May 13th, 2019) that it has closed a first tranche of the private placement by issuing 8,105,000 units ("Units") for gross proceeds of \$567,350.

The unit offering, which was initially announced on April 15th, 2019 consists of one share of common stock of the Company and one common share purchase warrant, with each Warrant exercisable to acquire an additional share of common stock of the Company at a price of \$0.12 per share for a period of four years.

Securities issued pursuant to the private placement, including common shares and share purchase warrants, carry a legend restricting trading of the securities for a period of four months and a day on closing. Finders' fees and commissions may be paid by the Company in relation to the units sold in this Offering.

About Bravada

Bravada is an exploration company with a portfolio of high-quality properties in Nevada, one of the best mining jurisdictions in the world. The Company has successfully identified and advanced properties that have the potential to host high-margin deposits while successfully attracting partners to fund later stages of project development. With the addition of OceanaGold's option of Highland, four of Bravada's eleven Nevada properties are being funded by partners. As well, there are no NSR-type royalties to vendors that cannot be reduced. Bravada's value is underpinned by a substantial gold and silver resource with a positive PEA at Wind Mountain and the Company has significant upside potential from possible new discoveries at its exploration properties, most of which host encouraging drill intercepts of gold and which already have drill targets developed by the Company.
