

Arianne Phosphate Reports Corporate and Financial Results for Second Quarter 2019

29.08.2019 | [CNW](#)

SAGUENAY, Aug. 29, 2019 - Arianne Phosphate (the "Company" or "Arianne") (TSXV: DAN) (OTC: DRRSF) (FRANKFURT: JE9N), a development-stage phosphate mining company, advancing the Lac à Paul project in Quebec's Saguenay-Lac-Saint-Jean region, reported its financial results for the three-month and six-month period ended June 30, 2019. All amounts are in Canadian dollars unless noted.

"The second quarter of the year was a strong one for the Company," said Brian Ostroff, CEO of Arianne. "During the period, Arianne received continued support by way of investment, added additional technical personnel and advanced discussions with potential partners and offtakers; all necessary pieces for the future development of our Lac à Paul mine. Our hope is to bring our world-class phosphate mine into production as soon as possible and unlock the considerable value for our investors and stakeholders that come with it."

Q2 2019 Financial and Operational Highlights

- In August 2019, Arianne has closed on a \$691,050 financing. Under the terms of the financing, Arianne has issued 1,256,455 units at a price of \$0.55 per unit. Each unit is comprised of one common share and a half warrant. Each full warrant entitles the holder to purchase one common share at a price of \$0.75 until August 21, 2021.
- In June 2019, Arianne entered into a non-binding Memorandum of Understanding ("MoU") with SINOCONST, a large Chinese state-owned enterprise. Under the terms of the MoU, Arianne and SINOCONST have agreed to work towards a final binding agreement relating to the development of Arianne's Lac à Paul project which, would include full project financing. On a parallel track, efforts to secure offtake are expected to be undertaken by SINOCONST in support of the financing package discussed under the MoU.
- In May 2019, the Company had closed a \$1.5 million investment from the Government of Quebec by way of private placement into the common shares of Arianne. Under the terms of the offering, the Government of Quebec is subscribing for 3,671,970 common shares of the Company at a price of \$0.4085 per share.
- In May 2019, the Company announced that Arianne shareholders have re-elected Messrs. Dominique Bouchard, Brian Ostroff, James Cowley, David DeBiasio, Marco Gagnon, Siva Pillay, Steven Pinney, Claude Lafleur and Jean Fontaine as directors of the Company during the Annual General Meeting of Shareholders of the Company held on May 29, 2019 in Montreal.

Highlights Subsequent to Quarter-End

- In July 2019, the Company announced efforts surrounding transportation logistics have significantly progressed. Arianne partnered with several parties to look at greater integration of aluminum into the truck trailer design. Through this initiative over the past year, Arianne and its partners have advanced a design that will be able to reduce the weight of the transport trucks and allow for a greater payload per run. Once integrated, this will result in fewer trucks on the road, increasing safety and reducing the overall environmental impact. As well, this design will bring about greater economies of scale, resulting in a reduction in the cost of transporting Arianne's phosphate concentrate to port and thus, the overall operating cost for its project.
- In July 2019, Arianne announced the addition of Raphael Gaudreault to its team. Raphael will be assuming the position of Director of the mining sector and comes to Arianne after most recently serving as Manager Planning and Mining Performance at Arcelor.

Financial Summary

Arianne is a development-stage company and, as such, did not generate revenue or positive cash flow in Q2 2019. In the second quarter ended June 30, 2019, the Company incurred net losses of \$0.6 million (M) for the three-month period and \$1.2M for the six-month period. For the same period in 2018, the net loss incurred was \$0.04M for the three-months and \$0.7M for the six-month period of 2018.

Liquidity

At June 30, 2019, the Company had \$1.2M cash on hand. These funds will be allocated towards general working capital and advancing development of Lac à Paul in 2019.

Outlook

Through the rest of 2019, Arianne will be focused on the ongoing advancement and development of its Lac à Paul project. Expected milestones include:

- Complete partnership and financing arrangements;
- Continue to enhance the value of the project through project optimization;
- Continue our ongoing dialogue with Stakeholders.

Arianne's Management Discussion and Analysis and condensed consolidated interim financial statements for the six-month period ended June 30, 2019 are available on the Company's website and on SEDAR at www.sedar.com.

As well, the Company today has announced the departure of Mr. David DeBiasio from its Board of Directors. Arianne wants to thank Mr. DeBiasio for his considerable contribution to the Company over the years, helping it move through the exploration stage towards development.

Qualified Person

Jean-Sébastien David, P.Geo., Qualified Person by NI 43-101, has approved this release. Mr. David is also the Company's Chief Operating Officer.

About Arianne Phosphate

Arianne Phosphate ("[Arianne Phosphate Inc.](http://www.arianne-inc.com)") (www.arianne-inc.com) is developing the Lac à Paul phosphate deposits located approximately 200 km north of the Saguenay/Lac St. Jean area of Quebec, Canada. These deposits will produce a high-quality igneous apatite concentrate grading 39% P₂O₅ with little or no contaminants (Feasibility Study released in 2013). The Company has 111,438,250 shares outstanding.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Cautionary Statements Regarding Forward Looking Information

This news release contains "forward-looking statements" and "forward-looking information" within the meaning of applicable securities regulations in Canada and the United States (collectively, "forward-looking information"). Forward-looking information includes, but is not limited to, anticipated quality and production of the apatite concentrate at the Lac à Paul project. Often, but not always, forward-looking information can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes", or the negatives thereof or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might", or "will" be taken, occur or be achieved. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to: volatile stock price; risks related to changes in commodity prices; sources and cost of power facilities; the estimation of initial and sustaining capital requirements; the estimation of labour and operating costs; the general global markets and economic conditions; the risk associated with exploration, development and operations of mineral deposits; the estimation of mineral reserves and resources; the risks associated with uninsurable risks arising during the course of exploration, development and production; risks associated with currency fluctuations; environmental risks; competition faced in securing experienced personnel; access to adequate infrastructure

to support mining, processing, development and exploration activities; the risks associated with changes in the mining regulatory regime governing the Company; completion of the environmental assessment process; risks related to regulatory and permitting delays; risks related to potential conflicts of interest; the reliance on key personnel; financing, capitalization and liquidity risks including the risk that the financing necessary to fund continued exploration and development activities at Lac à Paul project may not be available on satisfactory terms, or at all; the risk of potential dilution through the issue of common shares; the risk of litigation. Forward-looking information is based on assumptions management believes to be reasonable at the time such statements are made, including but not limited to, continued exploration activities, no material adverse change in commodity prices, exploration and development plans proceeding in accordance with plans and such plans achieving their stated expected outcomes, receipt of required regulatory approvals, and such other assumptions and factors as set out herein. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such forward-looking information. Accordingly, readers should not place undue reliance on forward-looking information. Forward-looking information is made as of the date of this press release, and the Company does not undertake to update such forward-looking information except in accordance with applicable securities laws.
