

# Medallion Resources Ltd. Completes \$250,000 Private Placement

30.06.2020 | [GlobeNewswire](#)

VANCOUVER, June 30, 2020 - [Medallion Resources Ltd.](#) (TSX-V: MDL; OTC PK: MLLOF; Frankfurt: MRDN) or the Company, pursuing smart production of NdPr magnet metals, today announced it has closed its non-brokered private placement (the Private Placement), as announced June 16, 2020, for gross proceeds of \$250,000. The Private Placement consisted of 2,500,000 units (each a Unit) at a purchase price of \$0.10 per Unit. Each Unit will consist of one common share in the capital of the Company (a Common Share) and one-half of a transferable Common Share purchase warrant (each whole warrant, a Warrant). Each Warrant will be exercisable to acquire one additional Common Share at an exercise price of \$0.15 until June 26, 2022.

We're pleased to close up this financing quickly and press on with the numerous business opportunities we see in the US marketplace, said Mark Saxon, Medallion President & CEO. Our timing to exploit both corporate and US federal government interest in re-building the domestic rare-earth value chain is excellent.

Medallion has developed a proprietary rare-earth element (REE) extraction process that can play an important role in providing security to an emerging North American REE value chain. Medallion's unique technology-led business model can deliver the most critical magnet REEs quickly and cost-effectively. The proceeds of the Private Placement will be used for business development and working capital.

All securities issued in connection with the Private Placement will be subject to a four-month hold period from the Closing Date, pursuant to applicable securities laws and the policies of the TSX Venture Exchange. The securities issued in connection with the Private Placement have not been nor will they be registered under the United States Securities Act of 1933, as amended, or state securities laws, and may not be offered or sold in the United States or to an account for the benefit of US persons, absent such registration or an exemption from registration. This press release shall not constitute an offer to sell or the solicitation of an offer to buy the securities in the United States or in any jurisdiction in which such offer, sale, or solicitation would be unlawful.

## About Medallion Resources

Medallion Resources has developed a proprietary process and related business model to achieve low-cost, near-term, rare-earth element (REE) production by exploiting monazite. Monazite is a rare-earth phosphate mineral that is widely available as a by-product from mineral sand mining operations. REEs are critical inputs to electric and hybrid vehicles, electronics, imaging systems, wind turbines and strategic defense systems. Medallion is committed to following best practices and accepted international standards in all aspects of mineral transportation, processing and the safe management of waste materials.
