

Wesdome Announces 2020 Second Quarter Financial Results

11.08.2020 | [GlobeNewswire](#)

TORONTO, Aug. 11, 2020 - [Wesdome Gold Mines Ltd.](#) (TSX: WDO) (Wesdome; or the Company) today announces second quarter (Q2 2020) financial results. All figures are stated in Canadian dollars unless otherwise noted.

Mr. Duncan Middlemiss, President and CEO commented, "During Q2, Wesdome generated operating cash flow of \$30.2 million or \$0.22 per share and free cash flow of \$17.7 million, net of an investment of \$6.0 million in Kiena, or \$0.13 per share, ending the quarter with a cash position of \$66.7 million (Q1 2020: \$49.4 million). Cash costs for the quarter were \$882 per ounce (US: \$637) and All-in sustaining costs were \$1,218 per ounce (US \$879) a 21% and 14% decrease respectively over Q1 2020.

With H1 2020 total gold production of 50,264 ounces at an average grade of 15.8 grams per tonne at the Eagle River mine, the Company is well-positioned to achieve its full year guidance range of 90,000 - 100,000 ounces at an average grade of 15 - 16.7 grams per tonne. H1 2020 cash costs of \$1,009 per ounce (US\$739) are above the high end of the company's guidance range of \$875 per ounce (US\$670) due to inventory adjustments in the first quarter, and reduced operational efficiencies related to protocols implemented due to COVID-19. The Company is revising cash cost guidance for the year to \$950 - \$975 per ounce (US\$700 - \$720). H1 2020 All-in sustaining costs of \$1,327 per ounce (US\$972) are within the company's guidance range of \$1,280 - \$1,350 per ounce (US \$985 - \$1,040) and we expect full year costs to be within this range.

The Eagle River complex was operating on reduced operations, and some work, such as exploration, mine and tailing construction activities, that were suspended in order to facilitate enhanced physical distancing to limit the potential spread of the COVID-19 virus, have gradually restarted in the second quarter. The initial budget for Eagle River underground exploration was 119,000 metres, which will now be 85,000 metres. Surface exploration metres of 33,500 metres will be largely unchanged, and we will introduce some regional exploration campaigns away from the existing mine.

At Kiena, work was shut down on March 24 in response to the Government of Quebec's mandated closures due to the COVID-19 virus, and resumed on May 11. Drilling activities are back to 100% capacity, and we expect to achieve our previously guided drill metres of 80,000 metres. We expect to publish an updated resource estimate in Q4, followed by a Pre-feasibility study. During the quarter, we also completed our Preliminary Economic Analysis (PEA) which delivered favourable economics of an after-tax IRR of 102%. A summary of the PEA was released on May 27, and the full report filed on June 25. Both reports are available on the Company's website and on [sedar.com](#).

Additionally, the Company wishes to announce the appointment of Raj Gill to the position of Vice President, Corporate Development. Raj has over 11 years of experience in the mining industry and capital markets including equity research, and most recently Director of Corporate Development at Kinross where he led and supported a range of strategic, financial and technical initiatives. Raj will be a great asset as Wesdome continues on its trajectory of becoming an all-Canadian intermediate gold producer.

Key operating and financial highlights of the Q2 2020 results include:

- Gold production of 25,142 ounces from the Eagle River Complex, a 12.1% increase over the same period in the previous year (Q2 2019: 22,437 ounces):
