

Horizon Minerals Limited: Commences Largest Ever Drilling Program

18.08.2020 | [ABN Newswire](#)

Perth, Australia - [Horizon Minerals Ltd.](#) (ASX:HRZ) is pleased to announce the commencement of the FY 2021 exploration program across a range of targets, all within 75km of Kalgoorlie-Boulder in the world class Goldfields region of Western Australia.

HIGHLIGHTS

- Horizon has commenced a +70,000m drilling program comprising reserve conversion, resource growth and new discovery drilling across the entire 850km² tenement package
- The Company's 100% owned tenure is located within 75km of Kalgoorlie-Boulder in the heart of the world class Western Australian goldfields
- The Company's current 1.1Moz Mineral Resource Estimate comprises the 507,000oz baseload Boorara project and 548,000oz in satellite deposits in close proximity with over 74% in the Measured and Indicated Resource categories
- The primary objectives of the fully funded aircore, reverse circulation and diamond drilling program include:
 - o converting existing Measured and Indicated Resources to a maiden Ore Reserve and upgrade existing Inferred Resources to a higher confidence JORC Category for inclusion in the consolidated Feasibility Study
 - o testing lateral and depth extensions to known mineralisation at the core Boorara, Rose Hill, Binduli and Teal gold project areas for the longer term production profile
 - o testing high priority new discovery targets defined at Lakewood, Kanowna South, Yarmany, Windanya / Baden Powell, Gunga and Balagundi
- Local contractor Goldfields Drilling has commenced drilling with all staff residing in the region and observing strict safety and COVID-19 operational guidelines
- First results from the drilling program are expected in the December Quarter 2020 with resource and reserve updates targeted for the March and June quarters 2021 respectively
- Trial mining at Boorara underway to demonstrate tonnage and grade uplift potential ahead of an updated Resource estimate as part of the consolidated Feasibility Study

Commenting on the recommencement of drilling, Horizon Managing Director Mr Jon Price said:

"We are pleased to be commencing the Company's largest ever drilling program which will feed into our reserve and resource growth plans as part of the Feasibility Study for the larger scale development supporting a proposed stand-alone processing plant at Boorara."

"In addition, the Company has refined a suite of walk up new discovery targets that will be tested as we continue the search for new large scale deposits in this prolific gold producing region."

"Horizon is now well funded, producing gold and generating cash, assessing a larger scale production profile and exploring for growth and new discoveries."

The fully funded program totals over 70,000m of planned drilling within a +\$7 million budget and comprises reserve conversion, resource growth and new discovery drilling throughout the 850km² of the Company's 100% owned tenure. The drilling will be completed systematically with up to three rigs cycling through the program with the results from each round collated, reviewed and informing the next round of drilling.
