"We are excited to utilize the VIC platform to highlight the breadth of metals and mining companies trading on our OTCQX, OTCQB and Pink markets," said Jason Paltrowitz, Executive Vice President of Corporate Services at OTC Markets Group. "We appreciate the collaboration and thought leadership of our co-sponsor and keynote presenter Red Cloud Securities Inc."

"Red Cloud is pleased to be once again working with the OTC Markets and to have been invited to speak on the current state of the resource market. 2020 has seen a rebound in metal prices and a resurgence in investors into mining exploration to levels not seen since the last cycle" said Andrew Kaip, Managing Director Equity Research at Red Cloud Securities Inc. "The rebirth of early stage exploration after close to a decade of under investment is essential to the health of the mining sector and critical to the sector's ability to reverse the trend of declining discovery. We are already seeing the signs of new discoveries with increased exploration spending. These discoveries are beginning to deliver returns that support risk capital allocation to grassroots exploration and should lead to further investment in discovery as investors look to identify the next earlier stage explorer set to repeat the Lassonde curve. Nothing reinvigorates exploration investment like brand new discoveries."
