About NAM

New Age Metals is a junior mineral exploration and development company focused on the discovery, exploration and development of green metal projects in North America. The Company has two divisions; a Platinum Group Metals division and a Lithium/Rare Element division.

The PGM Division includes the 100% owned, multi-million-ounce, district scale River Valley Project, one of North America's largest undeveloped Platinum Group Metals Projects, situated 100 km from Sudbury, Ontario. The Company has recently completed a Preliminary Economic Assessment on the project and subject to financing, plans are to complete a Prefeasibility Study by the end of the first quarter of 2022. In Alaska, the Company owns 100% of the Genesis PGM-Cu-Ni Project.

The Manitoba Lithium Division is one of the largest mineral claim holders in the Winnipeg River Pegmatite Field, where the Company is exploring for hard rock lithium and various rare elements such as tantalum and rubidium. 2021 plans include drone geophysics on three of the Company's seven projects and a drill program on the Company's Lithium Two Project

The Company is focused on developing its advanced stage River Valley Project. Our philosophy for our exploration stage assets is to be a project generator with the objective of optioning our projects with major and junior mining companies through to production. The Company is actively seeking an option/ joint venture partner for its road-accessible Genesis PGM-Cu-Ni project in Alaska and for all or part of our Lithium Division in Manitoba.

Investors are invited to visit the New Age Metals website at www.newagemetals.com where they can review the company and its corporate activities. Any questions or comments can be directed to info@newagemetals.com or Harry Barr at Hbarr@newagemetals.com or Cody Hunt at Codyh@newagemetals.com or call 613 659 2773.
