

Focus Graphite Closes First Tranche of Non-Brokered Flow-Through Offering

05.05.2021 | [ACCESS Newswire](#)

KINGSTON, May 5, 2021 - [Focus Graphite Inc.](#) (TSXV:FMS) (the "Company" or "Focus Graphite") announced today the closing of the first tranche of the previously announced non-brokered private placement (the "Offering") for gross proceeds of \$1,822,800.08. The Company has issued 15,190,001 flow-through common shares (the "Flow-Through Shares") at a price of \$0.12 per Flow-Through Share.

In connection with the closing of the first tranche of the Offering, the Company paid cash finder's fees totaling \$117,236.00 and issued 976,966 non-transferable finder's warrants (the "Finders Warrants"). Each Finders Warrant entitles the holder to acquire one (1) non-flow-though common share of the Company at a price of \$0.12 per common share until May 4, 2023.

The securities issued in connection with the closing of the first tranche of the Offering are subject to a four-month hold period expiring on September 5, 2021. The Offering is subject to the final approval of the TSX Venture Exchange.

Two insiders of the Company participated in the Offering and subscribed for an aggregate of 2,500,000 Flow-Through Shares representing an aggregate amount of \$300,000. Participation of insiders of the Company in the Offering constitutes a "related party transaction" as defined under Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("61-101"). The Offering is exempt from the formal valuation and minority shareholder approval requirements of 61-101 as neither the fair market value of securities being issued to insiders nor the consideration being paid by insiders will exceed 25% of the Company's market capitalization. The Company did not file a material change report 21 days prior to the closing of the Offering as the details of the participation of insiders of the Company had not been confirmed at that time.

The proceeds of the Offering will be used to support the exploration program on the Company's Tétepísca Graphite Project located southwest of the Manicouagan reservoir in the Côte-Nord administrative region of north-eastern Quebec.
