"With the receipt of excellent prospecting results from last month's exploration program at our East Goldfield project in Nevada, we want to ensure we have the necessary funds to expand our 4,000 m drill program as results warrant," commented Graham Downs, ATAC's President and CEO. "The additional flow-through funds also give us the ability to expand the upcoming program at our road accessible Connaught Property in Yukon, which hosts a compelling and untested copper porphyry target".

The proceeds from the sale of the flow-through shares will be used for "Canadian exploration expenses" at the Company's Connaught Property, Rackla Gold Property and other Canadian properties, and will qualify as "flow-through mining expenditures" as defined in the Income Tax Act (Canada). The Offering is scheduled to close on or before June 22, 2021, and is subject to regulatory acceptance.

All of the securities issued as part of the Offering will be subject to a hold period in Canada of four months plus one day from closing.
