About Gabriel

Gabriel is a Canadian resource company listed on the TSX Venture Exchange. The Company's principal focus has been the exploration and development of the Roşia Montană gold and silver project in Romania. The Roşia Montană Project, one of the largest undeveloped gold deposits in Europe, is situated in the South Apuseni Mountains of Transylvania, Romania, an historic and prolific mining district that since pre-Roman times has been mined intermittently for over 2,000 years. The exploitation license for the Roşia Montană Project is held by Roşia Montană Gold Corporation S.A., a Romanian company in which Gabriel owns an 80.69% equity interest, with the 19.31% balance held by Minvest Roşia Montană S.A., a Romanian state-owned mining company.

Upon obtaining the License in June 1999, the Group focused substantially all of their management and financial resources on the exploration, feasibility and subsequent development of the Roşia Montană Project.

Despite the Company's fulfilment of its legal obligations and its development of the Roşia Montan Project as a high-quality, sustainable and environmentally-responsible mining project, using best available techniques, Romania has blocked and prevented implementation of the Roşia Montan Project without due process and without compensation. Accordingly, the Company's current core focus is the ICSID Arbitration. For more information please visit the Company's website at www.gabrielresources.com.
