

Sabre Gold Mines and Golden Predator Mining Announce Anticipated Plan of Arrangement Closing

01.09.2021 | [GlobeNewswire](#)

Attendance at Precious Metals Summit

VANCOUVER, Sept. 01, 2021 - Sabre Gold Mines Corp. (formerly [Arizona Gold Corp.](#)) ("Sabre Gold" or the "Company") (TSX: AZG, OTCQB: AGAUF) and [Golden Predator Mining Corp.](#) ("Golden Predator") (TSX.V: GPY, OTCQX: NTGSF) are pleased to announce that all conditions to closing have now been satisfied in respect of the previously announced business combination, pursuant to which Sabre Gold will acquire all of the common shares of Golden Predator by way of a court approved plan of arrangement (the "Arrangement").

Closing of the Arrangement As previously announced on August 25, 2021, shareholders of both companies overwhelmingly approved all matters voted on at the special meetings, including shareholders of Golden Predator approving the proposed Arrangement. The British Columbia Supreme Court issued the final order approving the Arrangement on August 31, 2021.

The effective date of the Arrangement is expected to occur on September 2, 2021. In order to accommodate the closing of the Arrangement, trading in Golden Predator common shares ("Golden Shares") are being halted effective at the market close on September 1, 2021. Golden Predator Shares are expected to be delisted from the TSX Venture Exchange and an application will be made for Golden Predator to cease to be a reporting issuer following closing of the Arrangement.

Pursuant to the Arrangement, all of the Golden Shares issued and outstanding immediately prior to the completion of the Arrangement will be exchanged for common shares of Sabre Gold ("Sabre Shares") on the basis of 1.65 Sabre Shares per Golden Share (the "Exchange Ratio"). Following completion of the Arrangement, current Sabre Gold shareholders and former Golden Predator shareholders will own approximately 55% and 45% of the combined company common shares, respectively.

Registered Golden Predator shareholders are reminded to complete and return the letter of transmittal received with the meeting materials for the purposes of exchanging their Golden Shares for Sabre Shares, if they have not already done so. Non-registered or beneficial Golden Predator shareholders, being Golden Predator shareholders whose shares are registered in the name of a broker, investment dealer or other intermediary, will either receive their Sabre Shares through CDS or DTC (if arrangements have been made by their intermediary) or in certificated form. On closing of the Arrangement, Golden Predator warrants and options will be deemed to be amended in accordance with the Exchange Ratio and will be exercisable for Sabre Shares.

Name Change and Trading

In connection with the Arrangement, the Company completed its name change to "Sabre Gold Mines Corp." and is expected to commence trading on the Toronto Stock Exchange under the new name and ticker symbol (TSX:SGLD) on a post-Arrangement basis on or about September 8, 2021. The Company expects to begin trading on the OTCQB under its new name and ticker symbol by the middle of September 2021, until such time the Company will continue to trade under its current OTCQB symbol, AGAUF. A new website for the Company on a post-Arrangement basis will also be launched in early September 2021.

About Sabre Gold Mines Corp.

The combined company represents a business combination of Sabre Gold and Golden Predator a diversified, multi asset near-term gold producer in North America which will hold 100 per cent ownership of both the fully permitted Copperstone mine located in Arizona, United States and the Brewery Creek mine located in Yukon, Canada both of which are former gold producers. Management of the combined company intends to restart production at Copperstone followed by Brewery Creek in the near term.

The resource base of the combined company will consist of approximately 1.1 million ounces gold in the measured and indicated categories, plus an additional 1.5 million oz gold in the inferred category. Additionally, both Copperstone and Brewery Creek have considerable exploration upside with a combined land package of over 230 square kilometers that will be further drill tested with high priority targets currently identified.
