Online: go to <https://www.proxyvote.com>. Enter the 15-digit control number printed on the voting instruction form and follow the instructions on screen.

Mail: by mailing a complete, signed and dated voting instruction form to the address specified on the voting instruction form.

Beneficial Shareholders are reminded that every Intermediary has its own mailing procedures and provides its own return instructions which should be carefully followed by beneficial Shareholders in order to ensure that their Orca Shares are voted at the Meeting.

For additional information on the Arrangement and the Meeting, please refer to the Management Information Circular dated April 14, 2022 (the "Circular") as filed under Orca's profile on SEDAR at www.sedar.com.

Transaction Overview

Orca has entered into the arrangement agreement with Perseus under which Perseus will acquire all of the Orca Shares not already owned by Perseus by way of a statutory plan of arrangement under the Canada Business Corporations Act.

Pursuant to the terms of the Arrangement Agreement, all of the issued and outstanding Orca Shares that Perseus does not already own will be acquired by Perseus in exchange for common shares in the capital of Perseus (the "Perseus Shares") on the basis of 0.56 of a Perseus Share for every 1 Orca Share.

Transaction Rationale

The Orca Board unanimously recommend Orca Securityholders vote FOR the Arrangement. In making its determination to support the Arrangement, the Orca Board considered the attributes which are detailed in the Circular, which include, among other things, the following attributes:

- Premium for Orca Shares - The implied value of the consideration payable under the Arrangement to Orca Shareholders represents a significant premium of 62.9% to the closing price of the Orca Shares on the TSX-V on February 25, 2022 (being the last trading day preceding the date that Orca and Perseus issued a press release announcing the Arrangement).
- Access to Perseus's Strong Balance Sheet - The Arrangement is an opportunity for Orca Shareholders to gain access to Perseus's strong balance sheet and cash flow generation potential to fund and accelerate development projects and exploration initiatives, including Orca's Block 14 Project. The Orca Board considered the likelihood of raising this funding independently and assessed this to be challenging given the quantum of funds required and the market's perceived jurisdictional risk of Sudan. Further, as a publicly listed company on both the Toronto Stock Exchange ("TSX") and the Australian Securities Exchange ("ASX"), the combined company is expected to have greater access to both debt and equity capital markets relative to Orca, providing a lower aggregate cost of capital to finance development projects and exploration initiatives to drive future growth.
- Long-Term Value Creation Through Equity Ownership in a Larger Company - The Arrangement has been structured as a share transaction to allow Orca Shareholders to benefit from and participate in long-term value creation and the synergies associated with combining Orca's business with the business of Perseus. In particular, as a result of the Arrangement, Orca Shareholders will gain exposure to Perseus's diversified portfolio of producing mines and development assets, in addition to the potential for additional value created through Perseus's anticipated development of the Block 14 Project and Montage Gold Corp's ("Montage") Koné Project (through the 31.4% interest in Montage that Perseus will acquire from Orca in connection with the Arrangement).
- Perseus Has a Proven Track Record of Asset Development - Perseus has taken gold mining projects from the development stage through to production successfully and has an experienced technical team. The Orca Board carefully considered Perseus's experience and ability to fund the Block 14 Project's initial capital requirements and determined Perseus possessed the ability to advance the Block 14 Project to production successfully and efficiently.
- Shareholder Support - Lorito Holdings, S.A.R.L., Zebra Holdings and Investments S. A.R.L. and Ross J. Beaty, who collectively hold 26.7% of the issued and outstanding Orca Shares, signed voting support agreements pursuant to which they agreed to the support the Arrangement.

Perseus initially became a shareholder of Orca on January 31, 2022 when Perseus acquired 39,092,233 Orca Shares representing approximately 15% of the outstanding Orca Shares in a transaction with [Resolute Mining Ltd.](#) ("Resolute"). Although Orca was not party to the discussions between Perseus and Resolute, the Orca Board viewed Perseus becoming a significant shareholder of Orca positively, both because it viewed Perseus as a valuable strategic shareholder given its strong balance sheet and proven track record of asset development described above, and because it suggested the possibility of a follow-on acquisition transaction by Perseus, which would be of benefit to all Orca shareholders. Accordingly, the Orca Board waived the standstill provision contained in Perseus' confidentiality agreement with Orca to facilitate Perseus' purchase of Orca shares from Resolute. Following such purchase, Perseus completed its due diligence and negotiations in connection with the Arrangement advanced in a constructive manner, which ultimately resulted in the parties agreeing to the exchange ratio in the Arrangement of 0.56 of a Perseus for each Orca share, which was within the 0.55 to 0.575 range of exchange ratios approved by the Orca Special Committee and Orca Board. Perseus becoming a "related party" of Orca (for the purposes of MI 61-101) did not impact the dynamic of the negotiations between the parties that culminated in the Transaction.

Timing

The Transaction will be implemented by way of a court-approved plan of arrangement under the Canada Business Corporations Act and will require the approval of: (i) 66 2/3% of the votes cast by the holders of Orca Shares; (ii) 66 2/3% of the votes cast by holders of Orca Shares, restricted share units, deferred share units and options, voting together as a single class, and; (iii) approval of a simple majority of the votes cast by holders of Orca Shares, excluding votes from certain shareholders, including Perseus, in accordance with Multilateral Instrument 61-101, at the Meeting.

In addition to approval by Orca securityholders, the Transaction is also subject to the receipt of court approval, regulatory approvals and other customary closing conditions for transactions of this nature.

Closing for the transaction is expected to occur shortly following the Meeting.
