

Franklin Mining Retains Geologist Michael Biste to Prepare for Gold Mining

16.08.2022 | [GlobeNewswire](#)

Carson City, Aug. 16, 2022 - [Franklin Mining](#) CEO William Petty (OTC Pink: FMNJ) has hired world-renown Geologist Dr. Michael Biste to prepare a business operation plan as the company inches closer to gold production. The initial location where Franklin plans to recover alluvium gold tailings is in the Yuyo area, where machinery has been placed in anticipation of the mining operation.

Dr. Biste has already begun working with Franklin Mining Bolivia Vice President Fernando Freudenthal and Franklin Mining CFO Nick Jones to finalize the order of operations moving forward.

"Dr. Biste has worked with respected mining companies such as Golden Eagle, Behre Dolbear, Glencore, and even Franklin Mining from 2006-2010," announced Mr. Petty. "With an impressive resume spanning more than four decades in Bolivia, there is no one more qualified to lead Franklin to success than Dr. Biste. I have known him and known of him for many years, and we couldn't be happier to have him on board."

Safe Harbor Act: This release may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E the Securities Exchange Act of 1934, as amended and such forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. "Forward-looking statements" describe future expectations, plans, results, or strategies and are generally preceded by words such as "may," "future," "plan" or "planned," "will" or "should," "expected," "anticipates," "draft," "eventually" or "projected." You are cautioned that such statements are subject to a multitude of risks and uncertainties that could cause future circumstances, events, or results to differ materially from those projected in the forward-looking statements, including the risks that actual results may differ materially from those projected in the forward-looking statements as a result of various factors, and other risks identified in a company's annual report.
