

York Harbour Metals Announces Start of First-Ever Drilling at Pinnacle Target, Newfoundland

03.04.2023 | [Newsfile](#)

Toronto, April 3, 2023 - [York Harbour Metals Inc.](#) (TSXV: YORK) (OTC PINK: YORKF) (FSE: 5DE0) (the "Company" or "York") is pleased to announce the start of drilling at the Pinnacle Target ("Pinnacle") on its Copper-Zinc-Silver VMS project in Newfoundland and Labrador.

This is a significant milestone for the Company as it represents the first-ever drilling at the Pinnacle Target. The Pinnacle Target is one of the most prospective areas of the York Harbour project, with significant potential to host high-grade copper, zinc, and silver mineralization.

The Company's local field team Planet X Exploration Services Ltd. & Forage Fusion Drilling Ltd. have completed the helicopter supported drill pad preparation; finalized drill rig mobilization and assembly over the initial Pinnacle Target. Drill testing is set to begin immediately.

The Pinnacle Target was historically identified as having a large anomaly, confirmed by geophysical surveys and geological mapping but has never been drill-tested. The potential of testing the outer areas of the inferred distribution of VMS mineralization with folded volcanic sequence adds to the excitement around this project.

"We couldn't be more excited to have reached this important milestone of our exploration program," stated Bruce Durham, President & CEO of York Harbour Metals. "The start of drilling at the Pinnacle target marks a significant advancement in our mission to unlock the potential of the York Harbour project. This project has the potential to greatly expand the known high-grade VMS mineralization zones throughout the project, and we are eager to witness the results of our efforts."

Qualified Person

Doug Blanchflower, P. Geo., a Director of York Harbour, and Qualified Person in accordance with National Instrument 43-101, has reviewed and accepted the technical material contained in this news release.

About York Harbour Metals

[York Harbour Metals Inc.](#) (TSXV: YORK) (OTCPK: YORKF) (Frankfurt: 5DE0) is an exploration and development company focused on two high-grade projects in Newfoundland. The York Harbour Copper-Zinc-Silver Project is located approximately 27 km from Corner Brook in Newfoundland. The Company intends to continue drilling the 11 known mineralized zones and explore new massive sulphide targets.

Recently, the Company announced the acquisition of a high-grade Rare Earth Elements ("REE") project also located in Newfoundland. The Bottom Brook Critical Metals Project, covering 15,150 hectares, is located next to the Trans Canada Highway and is just 27 km from the deep-water port at Turf Point. York Harbour intends to actively identify diamond drill targets through property-wide prospecting, focused soil sampling, and geological mapping. A substantial drill program is scheduled for this year.
