## About Premium Nickel Resources Ltd.

PNRL is a mineral exploration and development company that focuses on discovering and advancing high-quality nickel, copper and cobalt resources. We are driven by our belief that the demand for these metals will continue to grow in the medium to long term, as a result of global urbanization and the increasing adoption of electric motors over internal combustion engines. These metals are vital for achieving a low-carbon future.

Our global strategy is to identify the most promising Ni-Cu-Co-PGE projects and acquire or invest in opportunities that offer high prospectivity in mining friendly jurisdictions located in low-risk countries with supportive foreign investment and resource acts as well as rule-of-law. Our portfolio includes various projects (Botswana, Greenland, Canada and Morocco) that complement our flagship Selebi Ni-Cu-Co sulphide mine located in Selebi-Phikwe, Botswana.

PNRL is committed to governance through transparent accountability and open communication within our team and our stakeholders. Our skilled team has collectively worked over 100 projects collectively, accumulating over 400 years of resource discoveries, mine development and mine re-engineering experience on projects like Selebi and Selkirk. PNRL's team members have on average more than 20 years of experience in every single aspect of mine discovery and development, from geology to operations.
