

Orea Terminates Acquisition of Additional Interest in Montagne d'Or Project

28.11.2023 | [CNW](#)

VANCOUVER, Nov. 28, 2023 - [Orea Mining Corp.](#) ("Orea") (TSX: OREA) (OTCQB: OREAF) (FSE: 3CG) reports that the Canadian government has not provided a decision concerning Orea's amended purchase agreement to acquire Nord Gold plc's ("Nordgold") 55.01% interest in the 5-million-ounce Montagne d'Or gold mine development project* (the "Acquisition"). Orea and its legal team are not aware of any transactions obtaining approval by the Canadian government related to persons sanctioned under the Special Economic Measures (Russia) Regulations, and considers it unlikely that the Acquisition will receive approval soon, or ever, therefore the Acquisition has been terminated. Orea's board is considering all available options to protect and advance its 44.99% interest in Montagne d'Or.

Orea reported on June 13, 2023, that the Canadian government rejected the Acquisition, leading to Orea obtaining amendments to the terms and reaching what Orea considers a risk-free purchase agreement (the "Amended Agreement") from a regulatory perspective (announced July 6 and July 20, 2023), whereby the proposed C\$100 million payment to Nordgold could only be made by Orea if and when all sanctions are lifted against Nordgold and its shareholders, in all applicable jurisdictions, including in Canada, the United States, France, the UK and the EU. The Amended Agreement also stipulated that the payment would not be due or payable at all under certain conditions.

Robert Giustra, Chairman of Orea, commented: "Orea successfully navigated a myriad of obstacles in multiple jurisdictions to acquire the sanctioned Russian interest in Montagne d'Or, for 100% ownership in what is widely considered to be one of the world's most valuable gold mines in development; mining.com recently ranked it 9th globally". Mr. Giustra further stated: "It was very unexpected that the Acquisition was not supported by Orea's home jurisdiction; Orea, its employees and its several thousand Canadian shareholders cannot overstate their deep disappointment with Global Affairs Canada and the Canadian government."

*About Montagne d'Or

Montagne d'Or is an open pit gold mine development project that hosts Measured Mineral Resources of 10.3 Mt at 1.804 g/t gold (600,000 oz), Indicated Mineral Resources of 74.8 Mt at 1.350 g/t gold (3.25 Moz) and additional Inferred Mineral Resources of 20.2 Mt at 1.48 g/t gold (960,000 oz), prepared in accordance with the requirements of National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101"). The Mineral Resources are confined within a pit shell defined by a gold price of US\$1,300/oz and a cut-off grade of 0.4 g/t gold. Mineral Reserves have also been defined with Proven Mineral Reserves of 8.25 Mt at 1.99 g/t gold (530,000 oz) and Probable Mineral Reserves of 45.87 Mt at 1.50 g/t gold (2.2 M oz). The Proven and Probable Mineral Reserves were estimated using a gold price of US\$1,200 per ounce at varied cut-off grades from 0.552 to 0.665 g/t gold, dependent on lithological rock types, economics and estimated metallurgical recovery. Montagne d'Or ore can be readily processed to recover the contained gold and silver values using unit operations considered standard to the industry.
