

Nexus Uranium Corp. Announces Marketing Agreements

02.02.2024 | [Newsfile](#)

Vancouver, Feb. 2, 2024 - [Nexus Uranium Corp.](#) (CSE: NEXU) (OTCQB: GIDMF) (FSE: 3H1) (the "Company" or "Nexus") is pleased to announce a renewal agreement with MIC Market Information & Content Publishing GmbH ("MIC") (Address: Gerhart-Hauptmann-St. 49b 51379 Leverkusen; email: contact@micpublishing.de; phone: +49 2171-7766628) beginning February 5th, 2024 (the "Agreement") for marketing services which will continue through March 30th, 2024 or until budget exhaustion. Pursuant to the Agreement, MIC will utilize their online programs with the aim of increasing investor awareness and interest in the Company through various online platforms and methods of engagement in consideration of EUR 250,000. The marketing activity will occur by email, Facebook, and Google. MIC does not have any prior relationship with the Company, other than previous marketing engagements and the Agreement constitutes an arm's length transaction.

The Company also announces that it has renewed its arm's length marketing agreement with Sideways Frequency LLC ("SFLLC"), originally dated December 18, 2023. The renewed agreement ((the "Marketing Agreement") is effective February 1st, 2024 and will continue until March 1, 2024. As consideration for SFLLC's marketing and investor awareness services (the "Services"), the Company has agreed to pay SFLLC a fee of \$150,000 (USD) for a term of one month (the "Term"). The Company may elect to renew the agreement at any point during the Term.

The Services will include, but are not limited to, email campaigns, native advertising, display ads, lead generation, creation of content, strategic planning, digital advertisement placement, and overseeing progress and results of digital campaigns.

Consideration offered to SFLLC does not include any securities of the Company. Aside from previous engagements, the Company does not have any relationship with SFLLC and Mr. Wesley De Souza, CEO of SFLLC.

The Company also announces that it has granted a consultant of the Company 20,000 restricted share units ("RSUs") pursuant to the Company's current omnibus equity plan. The RSUs will vest immediately on the date of grant and entitle the recipient to receive one common share in the capital of the Company (each a "Common Share"), a cash payment equivalent thereof, or any combination of cash and Common Shares at the sole discretion of the Company. The RSUs and the underlying Common Shares are subject to a four month hold period as required by the policies of the CSE.

About Sideways Frequency LLC

SFLLC is a limited liability company existing under the laws of the State of Utah. SFLLC is in the business of preparing, from publicly available information, advertisements consisting of profiles overviewing publicly traded companies, running marketing campaigns including pay-per-click (PPC) marketing, email marketing, native advertising, and display ads, and maintaining or updating clients' websites as the client sees fit. SFLLC's business address is 1389 Center Drive, Suite 200, Park City, Utah, 84098. SFLLC can be contacted by email at info@sidewaysfrequency.com.

About Nexus Uranium Corp.

Nexus Uranium Corp. is a multi-commodity development company focused on advancing the Wray Mesa uranium-vanadium project in Utah in addition to its precious metals portfolio that includes the development-stage Independence mine located adjacent to Nevada Gold Mine's Phoenix-Fortitude mine in Nevada, the Napoleon gold project in British Columbia, and a package of gold claims in the Yukon. The Wray Mesa project covers 6,282 acres within the heart of the prolific Uruvan mining district in Utah and has extensive historical drilling of over 500 holes defining multiple mineralized zones. The Independence project hosts an M&I (measured and indicated) resource of 334,300 ounces of gold (28M tonnes at 0.41 g/t gold) and an inferred resource of 847,000 ounces (9M tonnes at 3.22 g/t gold) of gold with a substantial silver credit. A 2021 Preliminary Economic Assessment (PEA) outlined a low-cost heap leach operation focusing on the near-surface resource with total production of 195,443 ounces of gold at an all-in sustaining cost of

\$1,078 (U.S.) per ounce of gold. The Napoleon project comprises over 1,000 hectares and prospective for multiple forms of gold mineralization, with exploration in the area dating back to the 1970s with the discovery of high-grade gold. The Yukon gold projects are comprised of almost 8,000 hectares of quartz claims prospective for high-grade gold mineralization with historical grab sampling highlights of 144 g/t gold.

Nexus Uranium cautions investors the preliminary economic assessment is preliminary in nature, it includes inferred mineral resources that are considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves, and there is no certainty that the preliminary economic assessment will be realized. The Company further cautions investors Mineral Resources which are not Mineral Reserves do not have demonstrated economic viability and further cautions investors the quantity and grade of the reported inferred Mineral Resources are uncertain in nature and there has been insufficient exploration to define these inferred Mineral Resources as indicated Mineral Resources.

The Company cautions investors it has yet to verify the historical data and further cautions investors grab samples are selective by nature and are unlikely to represent average grades of sampling on the entire property.

This news release includes certain statements and information that may constitute "forward-looking information" within the meaning of applicable Canadian securities laws. Generally, forward-looking statements and information can be identified by the use of forward-looking terminology such as "intends" or "anticipates", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should", "would" or "occur". All statements in this news release, other than statements of historical facts, including statements regarding future estimates, plans, objectives, timing, assumptions or expectations of future performance are forward-looking statements and contain forward-looking information. Forward-looking statements are based on certain material assumptions and analysis made by the Company and the opinions and estimates of management as of the date of this news release, including, but not limited to, statements with respect to the business to be carried on by the Company, the expected growth of the Company, including advancing of the Wray Mesa uranium-vanadium project in Utah and other projects, and the continued and successful engagement of MIC and SFLLC.

These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements or forward-looking information. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Readers are cautioned that reliance on such information may not be appropriate for other purposes. The Company does not undertake to update any forward-looking statement, forward-looking information or financial outlook that are incorporated by reference herein, except in accordance with applicable securities laws.
