

Cvw Cleantech Announces Commencement Of Trading On The Otcqx Market

14.02.2024 | [CNW](#)

CALGARY, Feb. 14, 2024 - [CVW CleanTech Inc.](#) (the "Company" or "CVW CleanTech") (TSXV: CVW) (OTCQX: CVWFF) is pleased to announce that the Company will begin trading today on the OTCQX Best Market under the symbol "CVWFF". The OTCQX Best Market is the highest tier of OTC Markets on which 12,000 U.S. and global securities trade. U.S. investors can find current financial disclosures and Real-Time Level 2 quotes for the Company at <https://www.otcmarts.com/stock/CVWFF/overview>.

CVW CleanTech's CFO, Joshua Grant, said "Trading on OTCQX will enhance the visibility and accessibility of the Company to U.S. based investors. We are pleased to have achieved this milestone and look forward to providing value and convenience to U.S. investors, brokers, and institutions seeking to invest in the Company."

The Company is in the process of securing Depository Trust Company ("DTC") eligibility for its common shares. DTC manages electronic clearing and settlement of publicly traded companies across the United States and in 131 other countries. Trading through DTC allows for cost-effective clearing and guaranteed settlement, simplifying and accelerating the settlement process of daily trades.

The Company's common shares will continue to trade on the TSX Venture Exchange under the symbol "CVW".

About CVW CleanTech Inc.

[CVW CleanTech Inc.](#) is a clean technology innovator working to develop sustainable technology solutions. The Company has developed a suite of proprietary technologies called Creating Value from Waste™ ("CVW™") that recover bitumen, solvents, critical minerals, and water from oil sands froth treatment tailings while significantly reducing tailings pond emissions and enhancing tailings management.

On an annual basis, an industry wide implementation of a CVW™ EcoMax development option could be expected to:

- Recover 13.2 million barrels of hydrocarbons (11.4 million barrels of bitumen and 1.8 million barrels of solvent);
- Produce 1.5 million tonnes per year of critical mineral concentrates in the form of titanium and zircon;
- Abate up to 5,000,000 tonnes of CO₂ equivalents, primarily methane;
- Eliminate up to 30,000 tonnes of volatile organic compounds (VOCs - considered toxic substances by Environment and Climate Change Canada);
- Potentially eliminate tailings pond growth due to froth treatment operations, and
- Generate annual revenues of \$2.7 billion within the province of Alberta.

Diverting the froth treatment tailings stream to a CVW™ EcoMax operation could recover up to 90% of bitumen and solvent that are currently lost into tailings ponds, avoid the associated fugitive methane emissions, as well as capture valuable zircon and titanium mineral concentrates. This patented and ready-to-deploy process would produce "Ready-to-Reclaim" tailings to meet the Alberta Energy Regulator's Directive 85 standards which would provide a step change in tailings management and allow for progressive remediation.

CVW CleanTech has invested over \$100 million and over 15 years to advance the CVW™ technology to ready-to-deploy status. This technology has been supported by large scale integrated piloting and progressive commercial engineering studies resulting in 20 active patents. The development of the Company's technology has been supported by the Government of Alberta and the Federal Government along with oil sands industry partners. Additional information on CVW CleanTech and its proprietary technology can be found within the Company's Process and Technology Overview which is accessible using the link below:

Disclosure regarding forward-looking information

This news release contains forward-looking statements and information within the meaning of applicable Canadian securities laws (collectively, "forward-looking information") that reflect the current expectations of management about the future results, performance, achievements, prospects, or opportunities for CVW

CleanTech.

Forward-looking statements are frequently, but not always, identified by words such as "expects", "anticipates", "believes", "intends", "estimates", "potential", "possible" and similar expressions, or statements that events, conditions or results "will", "may", "could" or "should" occur or be achieved. The forward-looking statements may include statements regarding expected timelines and results of deployment of CVW™ technologies and its business plan, the anticipated adoption of CVW™ technologies by industry participants and the timing for the same, estimated financial results from the implementation and adoption of CVW™ technologies, expected macroeconomic conditions for the deployment of CVW™ technologies, potential diversification opportunities and other future opportunities, statements regarding the benefits and implications of the implementation of our technologies or other statements that are not statements of fact. Forward-looking statements are statements about the future and are inherently uncertain, and actual achievements of the Company may differ materially from those reflected in forward-looking statements due to a variety of risks, uncertainties, and other factors. For the reasons set forth above, investors should not place undue reliance on forward-looking statements. Important factors that could cause actual results to differ materially from the Company's expectations include: the ability to advance the technologies of the Company on a timely basis or at all; reliance on estimates prepared by third parties; current estimates and predictions being based on certain assumptions about the industry in which the Company operates and macroeconomic conditions generally; uncertainties in the timing and receipt of regulatory and exchange approvals; uncertainties involved in disputes and litigation; fluctuations in interest rates, commodity prices, currency exchange rates, and other financial conditions, and the resultant effect on viability of investments; changes in the availability, and cost, of technical labour required for our business; price escalation and/ or inflationary pressures affecting the cost of equipment and material required to commercialize our projects; the uncertainty of estimates of capital and operating costs; the need to obtain additional financing and uncertainty as to the availability and terms of future financing; the impact on the Company of increasing inflation; and other risks and uncertainties disclosed in other information released by the Company from time to time and filed with the appropriate regulatory agencies.

All forward looking statements are based on the Company's beliefs and assumptions which are based on information available at the time these assumptions are made, and is necessarily based upon a number of assumptions that, while considered reasonable by the Company, are inherently subject to significant operational, business, economic and regulatory uncertainties and contingencies. The Company has made the following assumptions in relation to the forward-looking statements in this press release: the expected environmental and economic benefits to be achieved from CVW™ technologies; the ability of the Company to successfully access various government funding programs; reliance on economic estimations prepared and assumptions made by third parties; the details of government funding programs and that such programs will be implemented (and not change) as expected; that the Company will continue to be able to protect its intellectual property and proprietary technologies; assumptions as to various market and commercial opportunities for the Company and its technologies; and the ability of the Company to continue to develop and commercialize its technologies. The forward-looking statements contained herein are as of the date set out above and are subject to change after this date, and the Company assumes no obligation to publicly update or revise the statements to reflect new events or circumstances, except as may be required pursuant to applicable laws.

Although management believes that the expectations represented by such forward-looking information or statements are reasonable, there is significant risk that the forward-looking information or statements may not be achieved, and the underlying assumptions thereto will not prove to be accurate. Actual results or events could differ materially from the plans, intentions and expectations expressed or implied in any forward-looking information or statements, including the underlying assumptions thereto, as a result of numerous risks, uncertainties and factors including: failure to obtain regulatory approvals; the possibility that opportunities will arise that require more cash than the Company has or can reasonably obtain; dependence on key personnel; dependence on corporate collaborations; potential delays; uncertainties related to early stage of technology and product development; uncertainties as to fluctuation of the stock market; uncertainties as to future expense levels and the possibility of unanticipated costs or expenses or cost overruns; and other risks and uncertainties which may not be described herein.
