Mr. Lewis Black, President and CEO stated: "While our Panasqueira mine in Portugal consistently provides a positive EBITDA from mining operations, Almonty continues to clean up its balance sheet by converting over \$9 million of long-term debt as well as pushing out the maturity dates of over \$48 million of debt to late 2025 and beyond.

The Company is in an exciting phase right now with the build-out of our Sangdong Mine being in full swing towards completion of construction, with drawdowns on our KfW US\$75.1 million loan facility being received on time and as planned and with the 7th drawdown about to be called imminently.

The remarkable construction progress achieved throughout 2023 marks a significant milestone for the Almonty Korea Tungsten Project. With the successful arrival of over 90% of the required machinery and equipment, the project is steadily taking shape.

The cornerstone of Plant Construction serves as a testament to our commitment to excellence and reinforces our dedication to meeting project milestones on schedule. We are resolute in upholding the highest standards of safety, quality, and environmental responsibility, ensuring that every aspect of the project is executed with utmost care and precision. As our 3 years of pilot plant testing both in Portugal and Korea have shown us, we fully expect to hit the ground running in regard to processing. Additionally, mine development for phase one will be completed by September 2024 and we will then move without interruption into phase two of our mine development for our increased throughput. We already have inventory of ore on surface which has been generated by the mine development and our approach means that as the plant is commissioned, we have full access to ore tonnage and grades as contemplated by our mine plan. This level of feed consistency is an important element in minimizing ramp up time.

We remain focused on achieving our goals, and with the collective effort and commitment, we are confident in realizing the full potential of the Almonty Korea Tungsten Project. Together, we will create a lasting legacy and set new benchmarks in the industry with the ongoing support and partnership to continue this journey towards excellence".

About Almonty

The principal business of Toronto, Canada-based [Almonty Industries Inc.](#) is the mining, processing and shipping of tungsten concentrate from its Los Santos Mine in western Spain and its Panasqueira mine in Portugal as well as the development of its Sangdong tungsten mine in Gangwon Province, South Korea and the development of the Valtreixal tin/tungsten project in north western Spain. The Los Santos Mine was acquired by Almonty in September 2011 and is located approximately 50 kilometres from Salamanca in western Spain and produces tungsten concentrate. The Panasqueira mine, which has been in production since 1896, is located approximately 260 kilometres northeast of Lisbon, Portugal, was acquired in January 2016 and produces tungsten concentrate. The Sangdong mine, which was historically one of the largest tungsten mines in the world and one of the few long-life, high-grade tungsten deposits outside of China, was acquired in September 2015 through the acquisition of a 100% interest in [Woulfe Mining Corp.](#) Almonty owns 100% of the Valtreixal tin-tungsten project in north-western Spain. Disclaimer for Forward-Looking Information

When used in this press release, the words "estimate", "project", "belief", "anticipate", "intend", "expect", "plan", "predict", "may" or "should" and the negative of these words or such variations thereon or comparable terminology are intended to identify forward-looking statements and information. These statements and information are based on management's beliefs, estimates and opinions on the date that statements are made and reflect Almonty's current expectations.

Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Almonty to be materially different from those expressed or implied by such forward-looking statements, including but not limited to: any specific risks relating to fluctuations in the price of ammonium para tungstate ("APT") from which the sale price of Almonty's tungsten concentrate is derived, actual results of mining and exploration activities, environmental, economic and political risks of the jurisdictions in which Almonty's operations are located and changes in project parameters as plans continue to be refined, forecasts and assessments relating to Almonty's business, credit and liquidity risks, hedging risk, competition in the mining industry, risks related to the market price of Almonty's shares, the ability of Almonty to retain key management employees or procure the services of skilled and experienced personnel, risks related to claims and legal proceedings against Almonty and any of its operating mines, risks relating to unknown defects and impairments, risks related to the adequacy of internal control over financial reporting, risks related to governmental regulations, including environmental regulations, risks related to international operations of Almonty, risks relating to exploration, development and operations at Almonty's tungsten mines, the ability of Almonty to obtain and maintain necessary permits, the ability of Almonty to comply with applicable laws, regulations and permitting requirements, lack of suitable infrastructure and employees to support Almonty's mining operations, uncertainty in the accuracy of mineral reserves and mineral resources estimates, production estimates from Almonty's mining operations, inability to replace and expand mineral reserves, uncertainties related to title and indigenous rights with respect to mineral properties owned directly or indirectly by Almonty, the ability of Almonty to obtain adequate financing, the ability of Almonty to complete permitting, construction, development and expansion, challenges related to global financial conditions, risks related to future sales or issuance of equity securities, differences in the interpretation or application of tax laws and regulations or accounting policies and rules and acceptance of the TSX of the listing of Almonty shares on the TSX.

Forward-looking statements are based on assumptions management believes to be reasonable, including but not limited to, no material adverse change in the market price of ammonium para tungstate (APT), the continuing ability to fund or obtain funding for outstanding commitments, expectations regarding the

resolution of legal and tax matters, no negative change to applicable laws, the ability to secure local contractors, employees and assistance as and when required and on reasonable terms, and such other assumptions and factors as are set out herein. Although Almonty has attempted to identify important factors that could cause actual results, level of activity, performance or achievements to differ materially from those contained in forward-looking statements, there may be other factors that cause results, level of activity, performance or achievements not to be as anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate and even if events or results described in the forward-looking statements are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, Almonty. Accordingly, readers should not place undue reliance on forward-looking statements and are cautioned that actual outcomes may vary.

Investors are cautioned against attributing undue certainty to forward-looking statements. Almonty cautions that the foregoing list of material factors is not exhaustive. When relying on Almonty's forward-looking statements and information to make decisions, investors and others should carefully consider the foregoing factors and other uncertainties and potential events.

Almonty has also assumed that material factors will not cause any forward-looking statements and information to differ materially from actual results or events. However, the list of these factors is not exhaustive and is subject to change and there can be no assurance that such assumptions will reflect the actual outcome of such items or factors.

THE FORWARD-LOOKING INFORMATION CONTAINED IN THIS PRESS RELEASE REPRESENTS THE EXPECTATIONS OF ALMONTY AS OF THE DATE OF THIS PRESS RELEASE AND, ACCORDINGLY, IS SUBJECT TO CHANGE AFTER SUCH DATE. READERS SHOULD NOT PLACE UNDUE IMPORTANCE ON FORWARD-LOOKING INFORMATION AND SHOULD NOT RELY UPON THIS INFORMATION AS OF ANY OTHER DATE. WHILE ALMONTY MAY ELECT TO, IT DOES NOT UNDERTAKE TO UPDATE THIS INFORMATION AT ANY PARTICULAR TIME EXCEPT AS REQUIRED IN ACCORDANCE WITH APPLICABLE LAWS.

(1) Non-GAAP Financial Measures

This press release makes reference to certain non-GAAP financial measures. These measures are not recognized measures under IFRS, do not have a standardized meaning prescribed by IFRS and may not be comparable to similar measures presented by other companies. Rather, these measures are provided as additional information to complement IFRS financial measures by providing further understanding of Almonty's results of operations from management's perspective. Almonty's definitions of non-GAAP measures used in this press release may not be the same as the definitions for such measures used by other companies in their reporting. Non-GAAP measures have limitations as analytical tools and should not be considered in isolation nor as a substitute for analysis of Almonty's financial information reported under IFRS. Almonty uses non-GAAP financial measures, including "EBITDA", to provide investors with supplemental measures of its operating performance and to eliminate items that have less bearing on operating performance or operating conditions, and thus highlight trends in its core business that may not otherwise be apparent when relying solely on IFRS financial measures. Almonty defines "EBITDA from mining operations" as gross revenue less mine production costs.

Almonty believes that securities analysts, investors and other interested parties frequently use non-GAAP financial measures in the evaluation of issuers. Almonty's management also uses non-GAAP financial measures in order to facilitate operating performance comparisons from period to period.
