

# Rupert Resources Publishes Sustainability Report for 2023

11.07.2024 | [Business Wire](#)

[Rupert Resources Ltd.](#) ("Rupert" or the "Company") announces that it has published the Company's Sustainability Report for the period covering 2023. The full report is available on the Company's website.

James Withall, Chief Executive Officer of Rupert Resources said, "Our third annual sustainability report shows how Rupert Resources continues to move forward with purpose in the development of Ikkari. The project has the potential to become a lowest quartile GHG emissions gold mine due to the project's access to 100% renewable power, high open pit gold grade and low strip ratio. Rupert Resources' long-term strategy remains focussed on: (1) discovering deposits of significant scale and quality, characterized by high margins and potential for low environmental impact; (2) ensuring that investments contribute to valuation accretion to maximize returns per share; and (3) developing sustainably and planning for the long term. The Company is now entering the key permitting and development stages for the project and is continuing with its long-term engagement programs to demonstrate the project's benefits to all stakeholders whilst minimising the environmental impacts of the Company's activities.

Neither the TSX Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Exchange) accepts responsibility for the adequacy or accuracy of this release.

## Cautionary Note Regarding Forward Looking Statements

This press release contains statements which, other than statements of historical fact constitute "forward-looking statements" within the meaning of applicable securities laws, including statements with respect to: results of exploration activities and mineral resources. The words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "Estimate", "expect" and similar expressions, as they relate to the Company, are intended to identify such forward-looking statements. Investors are cautioned that forward-looking statements are based on the opinions, assumptions and Estimates of management considered reasonable at the date the statements are made, and are inherently subject to a variety of risks and uncertainties and other known and unknown factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include the general risks of the mining industry, as well as those risk factors discussed or referred to in the Company's annual Management's Discussion and Analysis for the year ended February 29, 2024, available on the Company's website [www.rupertresources.com](http://www.rupertresources.com) and on SEDAR [www.sedar.com](http://www.sedar.com). Should one or more of these risks or uncertainties materialize, or should assumptions underlying the forward-looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, Estimated or expected. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking information, there may be other factors that cause actions, events or results not to be as anticipated, Estimated or intended. There can be no assurance that such information will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company does not intend, and does not assume any obligation to update any forward-looking statement, whether as a result of new information, future events or results or otherwise.
