

Panther Minerals Inc. Advancing Robust Permitting Effort For 5-year Exploration Program

08.08.2024 | [CNW](#)

VANCOUVER, Aug. 8, 2024 - [Panther Minerals Inc.](#) ("Panther Minerals" or the "Company") (CSE: PURR) (OTC: GLIOF) (FWB: 2BC) reports that it has filed permit applications with State and Federal authorities for its proposed exploration program on the Boulder Creek property, Alaska. Receipt of these permits will position the Company to execute its exploration program on the property for the next 5 years.

Panther Minerals has filed the following permit documents:

- Notice of Exploration Operations with the US Bureau of Land Management (BLM) for surface exploration and drilling on the Company's 11 federal mining claims. The BLM has informed the Company that its Notice is complete, and the Company is free to initiate exploration at any time.
- Application for Permits to Mine in Alaska (APMA) with the State of Alaska Department of Natural Resources (DNR). The application has already gone through the public comment process, and DNR are reviewing comments and preparing final permit documents. The Company anticipates receiving the final Miscellaneous Land Use Permit (MLUP) from DNR in the coming weeks. The permit will authorize surface exploration, exploration drilling, use of the existing airstrip and use of state lands for the exploration camp.
- Temporary Water Use Authorization (TWUA) application with the State of Alaska DNR for authorization to withdraw water from streams at 5 locations on the claim block for camp and drill use. DNR has completed their initial review of the TWUA application, and the Company anticipates receiving the TWUA in the coming weeks.
- Application for coverage under the Statewide General Permit for remote camps for solid waste disposal with the State of Alaska Department of Environmental Conservation (DEC). This permit will authorize the Company to manage inert solid waste and incinerate burnable waste at its exploration camp. The Company anticipates receiving authorizations to operate under this general permit in the next 2 weeks.
- Application for Authorization for Exploration Activities in Anadromous Watersheds to the Alaska Department of Fish & Game (ADF&G). ADF&G has reviewed our APMA application and authorizes our proposed activities and provides stipulations for our in-stream water withdrawals that will protect anadromous fish. ADF&G issued permit FH24-III-0151 to the Company on July 17, 2024.

These permits will position the Company to execute a thorough exploration program, as described in its permit applications, over the next 5 years without the need for any additional permits. Receipt of the permits in the coming weeks will also accommodate the detailed planning required to safely and efficiently execute exploration programs in Alaska.

"We are pleased to have received the majority of permits required to accommodate our near- and long-term objectives on the Boulder Creek project," stated Rob Birmingham, President and CEO of Panther Minerals. "As we anticipate the final 5-year permits being issued in the near term, we can now prepare and organize this year and next years expected work programs with State and Federal support."

Qualified Person

The scientific and technical information in this news release has been reviewed and approved for disclosure by Lindsay Bottomer, PGeo. Mr. Bottomer is a qualified person within the meaning of National Instrument 43-101 -- Standards of Disclosure for Mineral Projects and is a consultant for the Company.

About Panther Minerals Inc.

Panther Minerals is a mineral exploration company actively involved in the exploration of its North American project portfolio. The acquisition of the Boulder Creek option reflects the Company's continuing intention of pursuing advanced, high-quality prospective uranium projects that can be readily worked on and efficiently explored in a timely manner.

ON BEHALF OF THE BOARD OF DIRECTORS

Mr. Robert Birmingham, Chief Executive Officer

Forward-Looking Statements

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Often, but not always, forward-looking information and information can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "estimates", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Actual future results may differ materially. In particular, this news release contains forward-looking information relating to the Company and exploration plans at the Boulder Creek property. The forward-looking information reflects management's current expectations based on information currently available and are subject to a number of risks and uncertainties that may cause outcomes to differ materially from those discussed in the forward-looking information. Such risk factors may include, among others, but are not limited to: general economic conditions in Canada and globally; industry conditions, including governmental regulation and environmental regulation; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; competition for, among other things, skilled personnel and supplies; incorrect assessments of the value of acquisitions; geological, technical, processing and transportation problems; changes in tax laws and incentive programs; failure to realize the anticipated benefits of acquisitions and dispositions; and the other factors. Although the Company believes that the assumptions and factors used in preparing the forward-looking information are reasonable, undue reliance should not be placed on such information and no assurance can be given that such events will occur in the disclosed time frames or at all. Factors that could cause actual results or events to differ materially from current expectations include: (i) adverse market conditions; and (ii) other factors beyond the control of the Company. New risk factors emerge from time to time, and it is impossible for the Company's management to predict all risk factors, nor can the Company assess the impact of all factors on Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ from those contained in any forward-looking information. The forward-looking information included in this news release are made as of the date of this news release and the Company expressly disclaims any intention or obligation to update or revise any forward-looking information whether as a result of new information, future events or otherwise, except as required by applicable law. Additional information identifying risks and uncertainties that could affect financial results is contained in the Company's filings with Canadian securities regulators, which are available on the Company's profile at www.sedarplus.ca.
