I am thrilled with the reception that Midnight Sun has received from the market over the past year and the increases in both liquidity and market cap we've seen as a result. Executing on our plans to explore and make transformative discoveries across our Solwezi Copper Project, while working on the potential to deliver near-term cash flow from oxide copper mineralization, under our Cooperative Exploration Plan with First Quantum, has driven exponential growth for Midnight Sun over the past year, and I believe we are only getting started. I look forward to continuing to deliver for our shareholders, as we bring our vision to life and get the 2025 exploration season underway on our sulfide and oxide copper targets at Dumbwa, Kazhiba and Mitu."
