

Bold Posts Updated Corporate Presentation

18.03.2025 | [Newsfile](#)

Toronto, March 18, 2025 - [Bold Ventures Inc.](#) (TSXV: BOL) (the "Company" or "Bold") is pleased to announce that it has posted updated maps and information on the Company website at www.boldventuresinc.com. The new information includes the corporate presentation with the latest information on its Ontario and Québec properties, future plans, and current share structure. A condensed presentation highlights Bold's flagship Burchell Gold and Copper Property located west of Thunder Bay, Ontario, as well as its Traxxin and Wilcorp gold projects in the same region, and provides proposed 2025 budgets for Burchell and Traxxin. The priority will be further exploration at the newly discovered 111 Zone at Burchell, where grab samples returned from 10 ppb Au up to 68 g/t Au in late 2024.

The Company would also like to draw attention to recent Ring of Fire news and has posted a recent article related to the critical mineral potential in the Ring of Fire and its context in current world events. You may access the article [here](#).

Bold's Koper Lake Project In The Ring of Fire:

Bold holds a 10% carried interest (through to production) in the Koper Lake Project which hosts the Black Horse Chromite NI 43-101 Inferred Resource of 85.9 Mt grading 34.5% Cr₂O₃ at a cut-off of 20% Cr₂O₃ ([KWG Resources Inc.](#), NI 43-101 Technical Report, Aubut 2015). Bold also holds a 40% working interest in all other metals found within the Koper Lake Project and has a Right of First Refusal on a 1% NSR covering all metals found within the claim group.

The Black Horse is contiguous with the Blackbird Chromite deposits owned by Ring of Fire Metals (formerly Noront Resources Inc.). The Koper Lake claims are located approximately 300 m from their Eagle's Nest Ni-Cu Massive Sulphide Deposit that is in the permit acquisition stage. Chromite, nickel and copper are critical minerals that will play an important role in the electrification plans of Ontario and North America. The Company is encouraged by these ongoing developments in this emerging critical mineral mining camp.

The environmental assessment process for all-weather road access to the Ring of Fire is being developed as three proposed road projects: the Northern Road Link, the Marten Falls Community Access Road and the Webeque Supply Road. Information and progress regarding these projects may be accessed via the links provided on Bold's Critical and Battery Minerals page.

The technical information in this news release was reviewed and approved by Coleman Robertson, B.Sc., P. Geo., the Company's V.P. Exploration and a qualified person (QP) for the purposes of NI 43-101.

Bold Ventures management believes our suite of Battery, Critical and Precious Metals exploration projects are an ideal combination of exploration potential meeting future demand. Our target commodities are comprised of: Copper (Cu), Nickel (Ni), Lead (Pb), Zinc (Zn), Gold (Au), Silver (Ag), Platinum (Pt), Palladium (Pd) and Chromium (Cr). The Critical Metals list and a description of the Provincial and Federal electrification plans are posted on the Bold Critical and Battery Minerals page.

About Bold Ventures Inc.

The Company explores for Precious, Battery and Critical Metals in Canada. Bold is exploring properties located in active gold and battery metals camps in the Thunder Bay and Wawa regions of Ontario. Bold also holds significant assets located within and around the emerging multi-metals district dubbed the Ring of Fire region, located in the James Bay Lowlands of Northern Ontario.

Cautionary Note Regarding Forward-Looking Statements: This Press Release contains forward-looking statements that involve risks and uncertainties, which may cause actual results to differ materially from the statements made. When used in this document, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" and similar expressions are intended to identify forward-looking statements. Such statements reflect our current views with respect to future events and are subject to such risks and uncertainties. Many factors could cause our actual results to differ materially from the statements made, including those factors discussed in filings made by us with the Canadian securities regulatory authorities. Should one or more of these risks and uncertainties, such actual results of current exploration programs, the general risks associated with the mining industry, the price of gold and other metals, currency and interest rate fluctuations, increased competition and general economic and market factors, occur or should assumptions underlying the forward looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, or expected. We do not intend and do not assume any obligation to update these forward-looking statements, except as required by law. Shareholders are cautioned not to put undue reliance on such forward-looking statements.
