

Nova Minerals Ltd. Provides an Invitation to Investor Webinars

31.03.2025 | [GlobeNewswire](#)

[Nova Minerals Ltd.](#) ("Nova" or the "Company") (NASDAQ: NVA) (ASX: NVA) (FRA: QM3) is pleased to provide an opportunity for its shareholders, investors, and the broader market to attend live webinars hosted by both Redchip Companies and the Emerging Growth Conference as detailed below.

These interactive online events will feature Nova's Chief Executive Officer Christopher Gerteisen, who will share the latest developments from the Company's Estelle Gold and Critical Minerals Project in Alaska, one of North America's largest undeveloped gold assets with a multi-million-ounce resource and significant growth potential. Gerteisen will discuss Nova's fast-track production strategy at the high-grade RPM deposit, and provide updates on feasibility studies, permitting, and infrastructure development. The presentation will also cover Nova's advancement of its high-grade Stibium antimony prospect, where the Company is positioning itself as a potential future key U.S. supplier of this critical defense mineral.

At the conclusion of the presentation there will be an opportunity for attendees to ask questions.

About Nova Minerals Limited

Nova Minerals Limited is a Gold, Antimony and Critical Minerals exploration and development company focused on advancing the Estelle Project, comprised of 514 km² of State of Alaska mining claims, which contains multiple mining complexes across a 35 km long mineralized corridor of over 20 advanced Gold and Antimony prospects, including two already defined multi-million ounce resources, and several drill ready Antimony prospects with massive outcropping stibnite vein systems observed at surface. The 85% owned project is located 150 km northwest of Anchorage, Alaska, USA, in the prolific Tintina Gold Belt, a province which hosts a >220 million ounce (Moz) documented gold endowment and some of the world's largest gold mines and discoveries including, Barrick's Donlin Creek Gold Project and [Kinross Gold Corp.](#)'s Fort Knox Gold Mine. The belt also hosts significant Antimony deposits and was a historical North American Antimony

producer.

Further discussion and analysis of the Estelle Project is available through the interactive Vrify 3D animations, presentations and videos all available on the Company's website.
