

# Burgundy Diamond Mines reports first quarter 2025 results

30.04.2025 | [GlobeNewswire](#)

CALGARY, April 30, 2025 - [Burgundy Diamond Mines Ltd.](#) (ASX:BDM) (Burgundy or the Company) provided the filing of its financial and operating results for the first quarter (Q1-2025) ended March 31, 2025, to the Australian Stock Exchange on April 30, 2025.

During the quarter, Ekati's operational team fully relocated surface mining equipment to Point Lake and transferred production personnel to the Misery camp.

"This co-location of Point Lake and Misery unlocks improved operational efficiencies, increases effective shift time, and enables a step change downward in mining costs," said Kim Truter, CEO of Burgundy Diamond Mines.

The transition to Point Lake saw some ore supply disruption due to wet and muddy mining conditions, which have been addressed by the end of the quarter. Misery production was also lower than planned due to cold winter conditions, which froze the ore blanket and inhibited free ore flow through the underground draw points. A targeted campaign to increase production ring drilling, blast the frozen ore, and expand underground haul capacity ensured that Misery production was back on track by the end of the quarter.

"We continue to place a strong focus on strengthening Burgundy's balance sheet, and I am pleased that we reached an agreement with Macquarie Bank during the quarter for an innovative fuel offtake contract that improves working capital and has potential for a multi-year agreement," said Truter.
