SuperQ Quantum Computing Inc. to Commence Trading on July 10, 2025 Under The Symbol “QBTQ“

09.07.2025 | The Newswire

SuperQ Quantum Computing Inc. (formerly, Atco Mining Inc.) (the "Company" or "SuperQ") (CSE: QBTQ; OTC: ATMGF; Frankfurt: QP9) is pleased to announce that it's common shares will commence trading on the Canadian Securities Exchange ("CSE") under its new symbol "QBTQ" (CUSIP: 14446B108 and ISIN: CA14446B1085) at market open on Thursday, July 10, 2025 following the completion of a fundamental change transaction (the "Transaction"), which was previously announced by the Company on July 7, 2025. Further details related to the Transaction are included in the Company's listing statement dated July 7, 2025, which is filed under the Company's issuer profile on SEDAR+ at www.sedarplus.ca.

About SuperQ

SuperQ's platform, Super, removes the technical barrier for organizations and individuals to practically use quantum computing and supercomputing. It combines quantum annealing, gate-based quantum computing and high performance computing to solve science and industry's most challenging problems, all with a ChatGPT like chat experience. By automating complex problem solving and dynamically orchestrating computations across classical and quantum resources, Super removes traditional computational bottlenecks and enables organizations to solve high-stakes optimization challenges with unmatched efficiency.

Super aims to revolutionize the way government agencies, Fortune 500 enterprises, SMEs, research institutions and retail users process, analyze and address complex computational challenges related to their operations and R&D (research and development). The technology offers speed, scalability and security, effectively bridging the gap between traditional computing limitations and the demands of industries at the forefront of innovation.

Super's proprietary solutions are designed to cater to organizations grappling with complex decision making across various sectors. From manufacturers running advanced simulations to energy conglomerates analyzing intricate data sets, and from life sciences institutions accelerating R&D to financial institutions protecting sensitive data, Super empowers these entities to push the boundaries of what is possible. For individuals, Super enables experimentation with and utilization of quantum and supercomputing without understanding the intricacies of these technologies.

Unlike pure quantum computing providers, Super offers a hybrid approach, seamlessly integrating AI-driven (artificial intelligence) optimization, high performance classical computing (HPC) and quantum computing under a unified platform. Super autonomously analyzes, decomposes and optimizes complex problems by intelligently leveraging natural language processing (NLP), AI-driven decision making and hybrid computing architectures. This ensures that each problem is solved using the most efficient computational method, balancing speed, accuracy and feasibility across classical and quantum resources.

"We are very greatful for the CSE and our team for getting this over the line" says Dr. Muhammad Khan, Founder of SuperQ. "We intend to create quantum computing's ChatGPT moment by putting quantum computing into the hands of millions of users around the globe. Just as ChatGPT democratized AI for millions of users, Super is intended to put quantum and supercomputing's power into the hands of every business, researcher and consumer. AI was around and useful long before Large Language Models (LLM's), but it didn't become mainstream until users were able to interact with it in human language. Super intends to enable exactly this for quantum computing."

Cautionary Statement Regarding Forward-Looking Information

This press release contains forward-looking information within the meaning of Canadian securities legislation. Forward-looking information generally refers to information about an issuer's business, capital, or operations that is prospective in nature. Any statements that are contained in this press release that are not statements of historical fact may be deemed to be forward-looking information. Forward-looking information is often identified by terms such as "may", "should", "anticipate", "would", "will", "estimates", "believes", "intends" "expects" and similar expressions which are intended to identify forward-looking information. More particularly and without limitation, this press release contains forward-looking information concerning statements with respect to future plans of the the Company, the development, operation and commercialization of Super. The Company cautions that all forward-looking information is inherently uncertain, and that actual performance may be affected by a number of material factors, assumptions and expectations, many of which are beyond the control of the Company, including expectations and assumptions concerning Super, the timely receipt of all required approvals (as applicable), including the final acceptance of the CSE, the trading date of the Company Shares, as well as other risks, uncertainties, and assumptions, including but not limited to assumptions regarding prevailing market conditions and general business, economic, competitive, political and social uncertainties to develop the forward-looking information in this press release. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information.

Investors are cautioned that any information released or received with respect to the Transaction and Super, may not be accurate or complete and should not be relied upon. Such forward-looking information, although considered reasonable by management at the time of preparation, may prove to be incorrect and actual results may differ materially from those anticipated. Forward-looking information contained in this press release is expressly qualified by this cautionary statement.

The forward-looking information contained in this press release are made as of the date of this press release, and SuperQ does not undertake any obligation to update publicly or to revise any of the included forward-looking information, whether as a result of new information, future events or otherwise, except as expressly required by applicable securities laws.

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this news release. The Canadian Securities Exchange has not in any way passed upon the merits of the proposed transaction and has neither approved nor disapproved the contents of this news release.
