The closing is subject to CSE final approval. The final Tranche has resulted in the issuance of 1,233,333 flow-through units for gross proceeds of \$148,000 and 2,490,000 non-flow-through units for gross proceeds of \$249,000 totalling \$397,000. Flow-through funds will be used primarily for a drilling program on the Zappa copper-gold porphyry target on the Rock & Roll property in BC's prolific Golden Triangle. Non-flow-through funds will be used for exploration and for working capital.

Each non-flow-through unit consists of one common share and one-half (1/2) of a non-transferable share purchase warrant with each whole warrant exercisable into one additional common share at a price of \$0.15 per share for a 2-year period.

Each flow-through unit consists of one flow-through common share and one-half (1/2) of one non-flow-through, non-transferable share purchase warrant with each whole warrant exercisable into one additional common share at a price of \$0.18 per share for a 2-year period.

All shares issued under the final tranche of the Financing will be subject to a hold period of four months and one day from the date of issuance.

The flow-through shares will qualify as "flow-through shares" for the purposes of the Income Tax Act (Canada) (the "Act"). The proceeds of the flow-through private placement will be used to incur "Canadian exploration expense" (within the meaning of the Act).
