Oroco Resource Corp. Announces Live Shareholder Town Hall

23.09.2025 | GlobeNewswire

Oroco Resource Corp. (TSX-V: OCO; OTC: ORRCF) ("Oroco" or "the Company") is pleased to invite shareholders, investors, and stakeholders to a live virtual Town Hall with Executive Chairman, Craig Dalziel, and President, Ian Graham.

This interactive session will provide an update on the Santo Tomás Copper Project, including management, permitting progress, community engagement, and next steps toward project advancement.

Town Hall Details:

- Date: Wednesday, September 24, 2025
- Time: 8:00 AM - 10:00 AM PDT
- Registration: Oroco Town Hall - Zoom

What to Expect:

- A direct update from Oroco's senior leadership on Santo Tomás
- Insights into current initiatives and long-term strategy
- A live Q&A session, giving participants the chance to engage directly with management

This Town Hall reflects Oroco's commitment to transparency, stakeholder engagement, and open dialogue as the Company advances one of Mexico's most significant copper development opportunities.

ABOUT OROCO

The Company holds a net 85.5% interest in those central concessions that comprise 1,173 hectares "the Core Concessions" of The Santo Tomas Project, located in northwestern Mexico. The Company also holds an 80% interest in an additional 4,948 hectares of mineral concessions surrounding and adjacent to the Core Concessions (for a total Project area of 6,121 hectares, or 15,125 acres). The Project is situated within the Santo Tomas District, which extends up to the Jinchuan Group's Bahuerachi Project, approximately 14 km to the northeast. The Project hosts significant copper porphyry mineralization initially defined by prior exploration spanning the period from 1968 to 1994. During that time, the Project area was tested by over 100 diamond and reverse circulation drill holes, totaling approximately 30,000 meters. Commencing in 2021, Oroco conducted a drill program (Phase 1) at Santo Tomas, with a resulting total of 48,481 meters drilled in 76 diamond drill holes.

Subsequent to the drilling at Santo Tomas, the resource estimates and engineering studies led to a revised MRE and an updated PEA being published and filed in August of 2024, which studies are available online at the Company's website at www.orocoresourcecorp.com and by reviewing the Company profile on SEDAR+ at www.sedarplus.ca.

The Santo Tomás Project is located within 170 km of the Pacific deep-water port at Topolobampo and is serviced via highway and proximal rail (and parallel corridors of trunk grid power lines and natural gas) through the city of Los Mochis to the northern city of Choix. The property is reached, in part, by a 32 km access road originally built to service Goldcorp's El Sauzal Mine in Chihuahua State.

Additional information about Oroco can be found on its website and by reviewing its profile on SEDAR+ at www.sedarplus.ca.
