Friday, November 7, 2025, at 3:59 PM (Sydney time)

About Champion Iron Limited

Champion, through QIO, owns and operates the Bloom Lake Mining Complex located on the south end of the Labrador Trough, approximately 13 kilometres north of Fermont, Québec. Bloom Lake is an open-pit operation with two concentration plants that primarily source energy from renewable hydroelectric power, having a combined nameplate capacity of 15M wet metric tonnes per year that produce lower contaminant high-grade 66.2% Fe iron ore concentrate with a proven ability to produce a 67.5% Fe direct reduction quality iron ore concentrate. Benefiting from one of the highest purity resources globally, Champion is investing to upgrade half of the Bloom Lake's mine capacity to a direct reduction quality pellet feed iron ore with up to 69% Fe. Bloom Lake's high-grade and lower contaminant iron ore products have attracted a premium to the P62 index. Champion ships iron ore concentrate from Bloom Lake by rail, to a ship loading port in Sept-Îles, Québec, and has delivered its iron ore concentrate globally, including in China, Japan, the Middle East, Europe, South Korea, India and Canada. In addition to Bloom Lake, Champion holds a 51% equity interest in Kami Iron Mine Partnership, an entity also owned by Nippon Steel Corporation and Sojitz Corporation, which owns the Kami Project. The Kami Project is located near available infrastructure, only 21 kilometres southeast of Bloom Lake. Champion also owns a portfolio of exploration and development

projects in the Labrador Trough, including the Cluster II portfolio of properties, located within 60 kilometres south of Bloom Lake.
