

Golden Harp Resources Inc. Announces Amended Agreement to Complete Consolidation of District-Scale Land Package

11.11.2025 | [ACCESS Newswire](#)

VANCOUVER, November 10, 2025 - [Golden Harp Resources Inc.](#) (TSX Venture:GHR.H) ("Golden Harp"), a Canadian mineral exploration company, today provided an update to its September 3, 2025 news release where it announced that it has entered into a definitive agreement (the "Acquisition Agreement") with Timothy A. Young to acquire all of his right, title and interest, subject to certain existing net smelter return royalties, in and to certain mining claims (the "Initial Mining Claims") covering approximately 1,230 hectares. These claims are contiguous, or in close proximity, to Golden Harp's existing Copper Hill Property, and certain of which are located within the boundaries of McFarlane Lake Mining's (formerly [Aris Mining Corp.](#)'s) adjacent Juby Gold Project.

The Copper Hill Property is currently comprised of the Main Block Property and the Block A Property. The Main Block Property is owned 100% by Golden Harp and represents mining claims covering approximately 4,830 hectares. The Block A Property is owned 49% by Golden Harp and 51% by Mr. Young, the Company's joint venture partner, and represents mining claims over approximately 5,490 hectares. Golden Harp and Mr. Young have entered into an amendment to the Acquisition Agreement (the "Amended Acquisition Agreement") whereby Golden Harp will also acquire from Mr. Young his 51% interest in the Block A Property, subject to any existing net smelter return royalties.

Ian Campbell, Golden Harp's Vice-President, Exploration, commented: "Today's announcement marks a further and critical strategic milestone for Golden Harp. The company's Copper Hill Property lies directly along geological trend from the Juby gold deposit, and this consolidation will position Golden Harp with a district-scale land package in an emerging gold district." Mr. Campbell concluded: "Upon closing, Golden Harp will emerge with a dominant land position covering over 11,500 hectares, and we are confident that it will add meaningful value to our exploration portfolio."

Below is a map of Golden Harp's property assuming closing of the acquisitions.

Consideration

As previously announced, as consideration for the acquisition of the Initial Mining Claims, Golden Harp will issue to Mr. Young 8,218,460 common shares. As additional consideration for the acquisition of Mr. Young's 51% interest in the Block A Property, Golden Harp will issue to Mr. Young 20 million common shares. All common shares issued to Mr. Young will be subject to a statutory hold period of four months and one day from the date of issuance.

In connection with the Amended Acquisition Agreement, Golden Harp and Mr. Young will upon closing enter into a royalty agreement (the "Royalty Agreement") pursuant to which Golden Harp will grant to Mr. Young a 1% net smelter return royalty on the Initial Mining Claims and the claims underlying the Main Block and Block A Properties, subject to existing net smelter return royalties.

Closing Conditions

Closing of the transactions contemplated by the Amended Acquisition Agreement remains subject to customary conditions, including receipt of final acceptance from the TSX Venture Exchange ("TSXV") and receipt of disinterested shareholder approval (i.e. excluding the votes attached to the common shares beneficially owned, or over which control or direction is exercised, by Mr. Young) at a special meeting of the holders of the common shares of Golden Harp. If TSXV or minority shareholder approval is not obtained within 90 days, the Amended Acquisition Agreement will terminate in accordance with its terms.

Shareholder Approval and Related Party Disclosure

As noted above, the closing of the acquisition is subject to disinterested shareholder approval at a special

meeting of the company's common shareholders. Such approval is required under TSXV Policy 5.3 as: (a) Mr. Young is a "Non-Arm's Length Party" and a "Control Person" of Golden Harp under TSXV Policy 1.1 and the issuance to him of the common shares as consideration will exceed 10% of the company's outstanding shares on a non-diluted basis; and (b) the evidence of value in respect of certain of the claims does not meet the prescribed methods.

The transaction also constitutes a "related party transaction" under Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions, but is exempt from the formal valuation requirement under Section 5.5(b) as no securities of Golden Harp are listed on certain specified markets.

Early Warning Disclosure

Upon closing of the acquisition, Mr. Young will acquire ownership and control of 28,218,460 additional common shares of Golden Harp, which, together with his existing holdings of 26,574,262 common shares, will result in beneficial ownership of 54,792,722 common shares, representing approximately 87% of the Company's issued and outstanding shares on a non-diluted basis. Mr. Young has advised that the shares will be acquired for investment purposes and that he may, from time to time, acquire or dispose of securities of Golden Harp in the future.

An early warning report will be filed by Mr. Young in accordance with applicable securities laws and will be available under Golden Harp's profile on SEDAR+ at www.sedarplus.ca.

NEX Board

Golden Harp's common shares are listed on the NEX board of the TSXV. At this time, Golden Harp is not contemplating a reactivation of the company from the NEX board to Tier 1 or 2 of the TSXV.
